In August 1946 *Chemical & Metallurgical Engineering* was renamed *Chemical Engineering*. *Chemical & Metallurgical Engineering* was the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGRAW-HILL PUBLISHING COMPANY, INC., NEW YORK CITY

Volume 63

January to December 1956

GENERAL ALPHABETICAL INDEX

A

Absorption:
Allied Chemical & Dye's five-story absorber bristles with cooling tubes (N) ..... Oct. *116
Cascade scrubber handles suspensions J. C. Driskell (P.N.) ... Dec. *234
Inorganic absorbent for removal of carbon dioxide via synthesis gas (N) ..... June 132
Save money on bubble-cap columns. Walsh & Lafyatis (charts & tables) ..... Apr. *193
Acetylene:
Acetaldehyde plant of Montecatini revamped for profit (N) ..... June *114
Diamond Alkali further defines four-year expansion plans (N) .... Dec. 118
General Aniline & Film starts up high-pressure acetylene products plant at Calvert City, Ky (N) . May 116
Rohm & Haas to make acetylene from methane (N) ..... Apr. 116
Acids:
Adipic acid from Monsanto (N) . Apr. 138
Fatty acid distillation. C. A. Lee (charts) ..... July *189
Isosebacic acid plant to be built by U. S. Industrial Chemicals in Tuscola, Ill. (N) ..... Jan. 138
Isophthalic acid challenges phthalic anhydride markets ..... Mar. 142
Isophthalic acid—first commercial plant started up by Oronite Chemical (N) ..... Jan. *124
Agitation:
Drain pump serves as an agitator. R. J. Love (P.N.) ..... Sept. 216
Power required for liquid agitation. H. E. Serner (charts) ..... July 195
Agricultural chemicals:
Inventory of new chemicals and materials ..... Mid-Sept. 72
Soil fumigant—Vapam ..... Sept. 152
Air Conditioning—Unique system warms air in winter, cools it in summer (N) ..... Oct. 114
Alcohol:
Isopropyl alcohol plant has unique corrosion problem ..... Aug. *254
Tetrahydrofurfuryl alcohol made new way at Quaker Oats plant (N) ..... June *138
Alloys—Selecting wear-resistant materials. Lutes & Reid, Jr. (table) ..... June 243
Alumina:
Alcoa boosts alumina and smelter capacity (N) ..... July 126
Anaconda Ayes commercial alumina —from-clay (N) ..... Jan. 128
Aluminum:
Cylinder of high-strength aluminum alloy supports conveyor (N) . Mar. *130
Expansion plans announced by Kaiser Aluminum, British Aluminum and Aluminum Ltd. (N) . Jan. 136
Kaiser boosted primary aluminum capacity by adding 18 new cells (N) ..... July 132
Olin Mathieson Chemical and Revere Copper—new partners in aluminum venture (N) ..... Nov. 132
Ambergris, synthetic ..... Sept. 148
Ammonia:
Gas turbines—new trend in nitric acid process plants—flowsheet . Jan. *274
Grace Chemical ties new equipment into going operation without missing a step (N) ..... June *128
Low temperature process gives new hydrogen source for ammonia (flowsheet) ..... June *400
Plants planned for South and Northwest (N) ..... Apr. 124
Sun Oil opens new ammonia plant (N) ..... May 120
Texas Co. and Petroleum Chemicals plan anhydrous ammonia plants (N) ..... June 120
Westvaco new ammonia plant is shrunk to fit (N) ..... July *118
Aniline—American Cyanamid plans aniline via new process (N) .... Aug. 136
Antifoam agent for continuous diffusers ..... Nov. 144
Antioxidant serves many products . . Oct. 144
Aroclors—More markets for unique heating medium ..... June 142
Aromatics—Chemical Market Research Assn. meeting spotlights aromatics ..... Feb. 256
Arsonosiloxanes ..... Oct. 142
Atomic Energy Commission:
GE AEC revise Hanford contract (N) ..... Aug. 132
Signs up beryllium suppliers (N) ..... Nov. 136
Yankee Atomic Electric signs for AEC aid (N) ..... Sept. 132
Atomic Power:
Atomic aid in getting oil from tar sands (N) ..... Mar. 138
Bradley Containers' electron accelerator—atom smasher: new process tool (N) ..... Jan. *114
British prepare atomic pile for start-up (N) ..... Sept. *138
Carbide announces extension of its contract with AEC (N) ..... Feb. 128
Coming nuclear industry—report. H. E. Anderson (charts & tables) ..... Dec. *192
Data fill vacuum—first published data on heat transfer in parallel flow outside tube bundles (N) . Mar. *116
Estimating costs for radio-chemical plants. W. G. Stockdale (tables) ..... Apr. 185
Four-gallon fuel tank powers new reactor (N) ..... Sept. *132
GE opens new laboratory at Hanford plant to seek water treatment methods for greater production of fissionable material (N) ..... Feb. 128
Graphite from first nuclear reactor used in Argonne Laboratory's new subcritical reactor (N) ..... Aug. *126
Industry to set own atom standards (N) ..... May 132
LMFR—continuous breeder reactor offers cheap power from U-233 dissolved in molten bismuth (N) . Mar. *114
Large-scale atomic power makes its debut—Britain's Calder Hall (N) ..... Dec. *114
"Loop" reactor in atomic pile simulates refining (N) ..... Nov. *130
Martin Nuclear Div. announces highly improved fuel element (N) ..... Dec. 134
More reactor elements, uranium, coming up (N) ..... May 134
New head design for heat exchangers distributes flow evenly (N) ..... Mar. *118
New "watch" times atomic particles speed (N) ..... Apr. 138
Nuclear fuel elements first target for Sylvania Electric's proposed multi-million-dollar expansion (N) . July *136
Process heat from nuclear reactors. R. H. Graham ..... Mar. *191
Rod mechanism controls new nuclear test reactor (N) ..... Dec. *118
Australia—Embraces chemical technology (N) ..... Dec. *134
Automation:
Analyzers unlock process control ..... Dec. *252
CPI automation: much already, more soon? W. H. Chartener ..... Sept. *270
Hearings held before subcommittee of Congress' Joint Committee on the Economic Report—can automation control itself? (N) . . . Jan. 130
Watch those automatic descending doors. P. C. Ziemke (P.N.) . . June 260
Awards:
Catalytic curiosity wins Chemical Engineering Award. W. H. Collings ..... Jan. 192
Dow Corning's achievement . . . . . Jan. *191
Dow Corning's achievement—Leadership: the key to industrial development. J. E. Hull ..... Jan. *193
NACE Service Award to A. Wachter of Shell Development ..... Mar. 294

B

Bagasse—Central Romana By-Product Co. first successful furfural-from-bagasse plant (N) ..... Apr. *126
Barium carbonate — Sherwin-Williams new producer (N) ..... Jan. 124
Batch Operations:
Finite difference calculations: new look at batch extraction. J. G. Knudsen (charts & tables) . . Apr. *188
Lab unit duplicates batch tank oper-

ation. P. N. Cheremisinoff (P. N.) Jan. 220
Liquid proportioning—report. Lawrence Lavy ..... May *175
Beryllium—AEC signs up beryllium suppliers (N) ..... Nov. 136
Bismuth—Manganese-bismuth powder to yield more powerful permanent magnets ..... Sept. *150
Blowers—Handling compressible fluids—Fans and blowers. A. N. Rogers (charts) ..... June *202
Boilers:
Chart computes fuel lost in clinker. G. E. Mapstone (P.N.) ..... Mar. 212
Preventing corrosion in air pre-heaters. A. C. Friedland (P.N.)..Sept. 218
Stable, nonflammable form of hydrazine promises to extend its use as deoxygenator in boiler feedwater treatment ..... Sept. *146
Bonding agents—Inventory of new chemicals and materials. Mid-Sept. 73
Book Reviews:
ABACS or nomograms. A. Giet..Dec. 418
Acridines. R. M. Acheson ..... Sept. 397
Automatic process control for chemical engineers. N. H. Cenzigke ..... Apr. 335
Catalysis III-Hydrogenation and dehydrogenation, ed. P. H. Emmett ..... Feb. 317
Chemical engineering cost estimation. Aries & Newton ..... Jan. 290
Chemical engineering. Unit operations Vol. II. Coulson & Richardson ..... Apr. 333
Chemical market research. R. E. Chaddock ..... July 356
Chemical process industries. R. N. Shreve ..... Aug. 380
The colloid chemistry of silica and silicates. R. K. Iler ..... July 359
Comprehensive inorganic chemistry Vol. LV. Cyr & O'Brien ..... Jan. 294
Condensed chemical dictionary, ed. Rose & Rose ..... Oct. 397
Determination of organic structures by physical methods. Braude & Nachod ..... July 361
Distillation in practice, ed. C. H. Nielsen ..... Apr. 334
Economic geography of industrial materials, ed. A. S. Carlson..Aug. 379
Experimental thermochemistry. Measurements of heats of reaction, ed. F. D. Rossini ..... Dec. 410
Experiments in organic chemistry. L. F. Fieser ..... Jan. 297
Fluidization, ed. D. F. Othmer..May 316
High temperature technology. J. E. Campbell ..... July 358
How to find a buyer for your invention. V. D. Angerman....Sept. 395
Information processing equipment, ed. M. P. Doss ..... Mar. 314
Introduction to chemical engineering. Badger & Banchero ..... Feb. 312
Ion exchange technology, ed. Nachod & Schubert ..... Oct. 396
Legal problems in engineering. M. Nord ..... Dec. 411
Mass-transfer operations. R. E. Treybal ..... Mar. 311
Mechanism of organic chemical reactions. E. de Barry Barnett..Sept. 394
Molecular vibrations. Wilson Jr., Decius & Cross ..... Jan. 290
Nuclear and radiochemistry. Friedlander & Kennedy ..... Apr. 336
Physical chemistry. Neil Kensington Adam ..... Sept. 396
Physical chemistry. Daniels & Alberty ..... Feb. 315
Plastics progress 1955 ..... June 422
Polyethylene. Raff & Allison.... Nov. 418
Principles of chemical engineering thermodynamics. Wilson & Ries ..... July 360
Principles of chemical equilibrium. K. G. Denbigh ..... Mar. 311
Proceedings of the sixth meeting of the International Committee for Electrochemical Thermodynamics and kinetics ..... May 319
Process engineering economics. H. E. Schweyer ..... June 423
Professional engineer's examination questions and answers. W. S. La Londe Jr. ..... May 318
Qualitative organic analysis. A. McGookin ..... Feb. 316
Quantitative analysis of drugs. D. C. Garratt ..... Jan. 293
Safety in industry. D. I. Macfarlane ..... Mar. 313
Sicherheit im chemiebetrieb....Feb. 316
Steric effects in organic chemistry, ed. M. S. Newman ..... Dec. 412
Systematic handbook of volumetric analysis, ed. F. Sutton ..... Feb. 314
Titanium. McQuillan & McQuillan ..... Nov. 419
X-ray diffraction by polycrystalline material. Peiser, Rooksby & Wilson ..... Jan. 295
Borax—Pacific Coast Borax Co.'s expansion encompasses new process and plant (N) ..... Jan. 116
Brainstorming—Here's how to get an idea—in a hurry ..... July 218
Bromine—New bromine plant set for Arkansas (N) ..... Mar. 136
Bubble Caps:
Chart gives liquid gradient on plates. Ferdinand Rodriguez (P.N.)..Nov. 230
Save money on bubble-cap columns. Walsh & Lafystis (charts & tables) ..... Apr. *193
Tray design saves space on bubble-cap fractionation column (N) ..... Mar. *132
Butadiene:
Dow Chemical plant to produce catalyst for making butadiene (N) ..... Nov. 126
Odessa Butadiene and Humble Oil & Refining plan new butadiene capacity (N) ..... Sept. 138

C

Calcium—Absorbent, free-flowing silicate, Micro-Cel ..... Jan. *146
Calculations:
Calculating blends of sublots of material. R. L. Hunter (P.N.)..Nov. 234
Chart gives liquid gradient on plates. Ferdinand Rodriguez (P.N.)..Nov. 230
Charts help solve heat balances. A. H. Younger ..... Nov. 209
Computer solves heat flow problems. Levine & Opler ..... Jan. 203
Drag coefficient for a better understanding of certain problems in fluid flow. W. R. Gambill..... July *177
Estimating steam film coefficients under vacuum. Liang-tseng Fan (P.N.) ..... Apr. 208
Finite difference calculations: new look at batch extraction. J. G. Knudsen (charts & tables)..Apr. *188
How many stages to extract solids? S. R. M. Ellis (charts) ..... Sept. 185
How you can save with digital computers (charts) (N) ..... Dec. *136
Improve your compressor design with new calculation method. W. Hartwick (charts & tables) ..... Oct. 204
Install the right-size orifice. Troupe & Goodwin (charts & tables)..Oct. 199
Irregular areas found without a planimeter. C. A. Harper (P.N.) ..... July 210
"Magic number" series speeds calculation. C. Volff (P.N.) ..... June 262
More data to aid design—liquid densities over temperature range. J. O. Osburn ..... Mar. 196
New data will extend range of steam tables (N) (chart) ..... Oct. 124
Now calculate dewpoint without tables. M. W. Africa (P.N.)..Oct. 220
Reactor design for complex reactions. Corrigan & Young: Pt 1 Jan. *207
Pt 2 Feb. 193
Reactor design problem: complex reaction. Corrigan & Young..Mar. *201
Short form speeds up radiation calculations. J. R. Cary (P.N.)..Feb. 200
Shortcut chart for standard deviations. D. S. Davis (P.N.)....Apr. 206
Shortcuts for transient heat flow. Granet & Gould ..... Feb. 183
Simplified combustion calculations. Kist & Frumerman (charts)..July 179
Tables of physical and thermodynamic properties on the way to help with engineering calculations (N) ..... Oct. 122
Ternary mixture chart finds weight and mole fractions. G. A. Lessells (P.N.) (charts & tables)..... July 208
Two numbers that make a log plot. J. H. Smith (P.N.) (chart)..Oct. 220
Vapor-liquid values made easy. J. F. Voorwijk ..... May 201
Canada—Law halts Frobisher-Ventures hydroelectric plan (N) ..... Feb. 124
Carbon Dioxide:
Ammonia refrigeration cuts cost in making dry ice (N) ..... Aug. *114
Westvaco captures byproduct CO_2 from manufacture of industrial phosphates, turns it into dry ice (N) ..... May *114
Carbon monoxide—CO: up and coming raw material—flowsheet..Nov. *382
Catalysts:
Cat reformers hit top octanes—flowsheet ..... Dec. *374
Catalytic curiosity wins Chemical Engineering Award—Dow Corning's achievement. W. R. Collings ..... Jan. 192
Catalytic reactor design problems. Corrigan & Mills (charts & tables) Pt 1 July 201, Pt 2 Aug. 221, Pt 3 Sept. 211
Diazonium fluorophosphate yields catalytic fluoride ..... Aug. 146
Dow Chemical plant to produce catalyst for butadiene making (N) ..... Nov. 126
Lithium dispersions gaining importance as polymerization catalysts for synthetic rubber....Aug. 148
Mercury catalyst—No. 1 problem in making methyl styrene: don't let mercury get away (N) ..... Sept. *118
Reactor design for catalytic reactions. Corrigan & Mills (charts & tables) Pt 1 Apr *197, Pt 2 May *203
Reactor design problem: stable operation. Corrigan & Mills (charts) ..... June 253
Two-stage fluid catalytic cracker at Shell's (N) ..... July *120
Universal Oil Products tests show no catalyst regeneration, no sag in octane rating (N) (chart)..June 130
What commercial reactors look like. Corrigan & Mills ..... Oct. *211
Caustic soda:
Chlorine-caustic: a dynamic balance. C. H. Chilton (chart) ..... May 256
Wyandotte plans chlorine-caustic plant in Louisiana (N) ..... Nov. 126
Cellulose—Propionate plastic ..... Jan. 144
Cement:
Canada to increase production (N) ..... Jan. 122
Furane cements for lining and sealing. Stasys Maziliauskas (P.N.) ..... May 214
Inventory of new plants and facilities ..... Mid-Sept. 8
Marquette Cement plans plant at Cape Girardeau, Mo. (N)....Feb. 128
More cement from four sources (N) ..... Mar. 136
Oil well cement systems ..... May 142
Ceramic magnet ..... Dec. 142
"Chemical Engineering":
Inventory issue ..... Mid-Sept.
Technology in the year ahead—33rd annual review and forecast..Jan. *175
"Chemical Engineering Refresher":
Chemical engineering fundamentals. Corrigan & Mills (charts & tables)
Catalytic reactor design problems Pt 1 July 201, Pt 2 Aug 221, Pt 3 Sept. 211
Reactor design for catalytic reactions Pt 1 Apr. *197, Pt 2 May *203
Reactor design problem: stable operation ..... June 253
What commercial reactors look like Oct. *211
Chemical engineering fundamentals. Corrigan & Young. Reactor design for complex reactions Pt 1 Jan. *207
Pt 2 Feb. 193
Reactor design problem: complex reaction ..... Mar. *201
Chemical engineering fundamentals. J. O. Osburn, Physical equilibrium for equipment design Pt 1..Nov. 228
Pt 2 ..... Dec. 211
Chemical Engineering Reports:
Chemical technology of fermentation. Elmer Gaden Jr. (charts & tables) ..... Apr. *159-174
The coming nuclear industry. H. E. Anderson (charts & tables) ..... Dec. *192-210
Foams in chemical technology. Gaden Jr. & Kevorkian..... Oct. *173-184
Handling compressible fluids—An over-all view (charts & tables) ..... June *175-238
Industrial statistics. William Volk (charts & tables) ..... Mar. 165-190
Inventory issue ..... Mid-Sept.
Liquid-gas contacting. R. E. Vener (charts) ..... Aug *175-206
Liquid proportioning. Lawrence Lowy ..... May *175-188
Mechanical seals for handling abrasive liquids. R. D. Norton..Sept. *199-210
17 biennial report on materials of construction
Pt 1 Protective lining systems. Mixer & Oechsle Jr..... Nov. *176
Pt 2 Directory of construction materials (tables) ..... Nov. 197
Technology in the year ahead..Jan. 175
Chemical Engineers:
Armstrong, Robert T ..... Feb. *301
Britton, Edgar C ..... Aug. *353
Colton, H. Seymour ..... Mar. *296
Happel, John ..... July *321
Hershey, Robert L ..... Sept. *361
Nelson, Charles R ..... June *407
Ray, Robert S ..... Oct. *365
Spaght, Monroe E ..... May *295
Stevens, Raymond S ..... Apr. *315
Tielrooy, Jack ..... Oct. *365
Treybal, Robert ..... July *321
Ware, Thomas M ..... Jan. *281
Winnicki, Henry S ..... Dec. 381
York, Robert ..... Nov. *389
Chemical Industry:
Capital spending plans for 1957 higher than 1956. W. H. Chartener (charts & tables)..... July 258
CPI automation: much already, more soon? W. H. Chartener..... Sept. *270

Chemical inventories are higher but healthy ....Aug. 282
Chemical profits in '55: the big pay-off. William Chartner (table)..Apr. 256
The coming nuclear industry (report). H. E. Anderson (charts & tables) Dec. *192
Consumer trade lures ethical drug makers ....Oct. *266
Du Pont asks who wants what from the CPI? ....Sept. 276
84th Congress and you....Oct. 270
Government eyes mounting mergers Mar. 266
Inventory issue ....Mid-Sept.
Mexico—more plants set, proposed (N) ....May 120
New processes stud paper plant addition (N) ....July 136
1955 sales and production up....Feb. 256
Producers shift to bread and butter chemicals ....Sept. 276
Pulpers switch to dioxide (N)..July *134
Salt Lake City, Utah—cobalt, tungsten and uranium figure prominently in industry news (N)..Mar. 134
Three new plants for sulfuric span nation (N) ....July 120
Titanium moves into process equipment. G. T. Bedford & others (tables) ....Dec. *233
What's ahead for chemicals from wood? Frances Arne....Nov. *282
Chemical Market Research Assn.—Meeting spotlights aromatics....Feb. 256

Chlorine:
Chlorine-caustic: a dynamic balance. C. H. Chilton (chart)....May 256
Diamond Alkali further defines four-year expansion plans (N)....Dec. 118
New "packaged" low-amperage mercury cell for small chlorine-caustic user (N) ....May *118
New process yields chlorine-free plant exhaust (N)....Sept. 126
Three plants slated for Southwest by Dow, Wyandotte and Frontier Chemical (N) ....May 134
Wyandotte plans chlorine-caustic plant in Louisiana (N)....Nov. 126
Chlorine dioxide—Pulpers switch to chlorine dioxide bleaching (N) July *134
Chlorofluorocarbons—Intermediates for plastic, paint, refrigeration and textile fields ....June 146

Chromatography:
Chromatograph automatically analyzes refinery gas (N)....Oct. *134
Gas-liquid partition chromatography catching on fast (N) ....June *116
Chromic acid—New way to recover chromic acid solutions (N)...Aug. 124

Chromium:
New chemical process wins chromium from ore—flowsheet ....Apr. *308
Plating additive ....Sept. 148
Citric acid—use in secondary oil recovery June *146

Cleaning
Floor cleaning, polishing and sweeping compounds: big chemical market (table) ....Feb. 256
How to clean equipment chemically. R. L. Fiske....Dec. *187

Coal:
Gas-from-coal process gets plant try (N) ....Aug. 116
Koal Krudes new plant will use a new medium-temperature carbonization process (N) ....July *128
More coal chemicals wanted (table) June 312

Coatings:
Anti-static coating ....Oct. 148
Auto finish features high gloss..Dec. 146
Auto finishes cut need for waxing Apr. 148
Barrier coating for polyethylene Jan. 148
Fire-retardant mastic....Nov. 150
Fluidized coating process....Jan. 226
Inventory of new chemicals and materials ....Mid-Sept. 87
Liquid neoprene ....Dec. 148
Metallizing for protection of bulk shipments. H. S. Hammond..June *278
New coating selection system..Aug. 264
New mastic coating resists ignition Mar. *148
New method of corrosion protection for equipment from Graver Water Conditioning Co. ....Jan. 228
Phosphating guide ....Apr. 232
Plastic-coating process, Whirlclad Mar. *146
Protective lining systems—17 biennial report on materials of construction. Mixer & Oechsle Jr. Nov. *176
Resin coating, Glid-Iron ....Mar. 148
Silicone finish for glass cloth...Apr. 148
Urethane wire coatings....July 150
Zinc-filled silicate coatings....Jan. *234
Cobalt—Sill recovery process gets pilot-plant try (N) ....June 130

Coke and Coke Products:
American Gilsonite's gasoline-and-coke-from-gilsonite project takes shape (N) ....Sept. *134
Coke-oven operators swing to DAP (N) ....Nov. 124
Color coding—Standards to increase safety. Garrett & Jordan (tables) Sept. 195
Colors — Phthalocynanine pigments growth ....May *138

Combustion:
Gas composition in rich combustions. N. W. Luft (P.N.) (chart)...May 212
New jet-fuel combustion lab for full-scale tests (N) ....Aug. *138
Submerged combustion flares again. C. S. Cronan ....Feb. *163

Compressors:
Handling compressible fluids — An over-all view (charts & tables) (report)
Compressor application. P. R. Des Jardins ....June *178
Compressor selection. W. T. Alderson ....June *188
Steam jet ejectors. Robert Frumerman ....June *196
Fans and blowers. A. N. Rogers June *202
Centrifugal compressors. E. S. Leonard ....June *206
Axial compressors. R. E. Claude June *212
Reciprocating compressors. E. L. Case ....June *216
Rotary compressors and vacuum pumps. Bruce & Schubert..June *224
Drivers, controls, accessories. R. N. Hancock ....June *227
Improve your compressor design with new calculation method. W. Hartwick (charts & tables) ....Oct. 204
Inventory of new equipment and accessories ....Mid-Sept. 334
Portable air compressor takes care of shortages. H. B. Wayne (P.N.) July 214
Computers—How you can save with digital computers (charts) (N) Dec. *136
Concentration — Submerged combustion flares again. C. S. Cronan....Feb. *163
Concrete—Bechtel Corp. "snow" ends hot-weather damage to concrete (N) ....Mar. *128

Condensation:
Condensate provides pump seal liquid. Gibbons & Ulrich (P.N.) Jan. *216
How to design barometric condensers. Harlan How....Feb. *174
Improved condenser for supplying gland water. R. W. Fugler (P.N.) July *214

Construction:
Allied Chemical & Dye's Solvay Process Div. builds new soda ash plant on site of old one with no lost production during construction (N) Jan. *118
Bechtel Corp. "snow" ends hot-weather damage to concrete (N) Mar. *128
Fermentation plant produces before walls are up (N)....Jan. *130
Houdriflow reactor stress-relieved 200 ft. up (N)....Apr. *132
Inventory of new plants and facilities ....Mid-Sept. 8-43
Inventory of new plants and facilities—technical literature. Mid-Sept. 43
Modular heat exchangers available in most materials of construction. R. L. Callard (charts)....July 197
Organization and execution of engineering design. R. L. Miller Jr. (charts & tables)....July *185
Proper design for painting. Kirtley & Colter ....Feb. *187
Reichhold Chemicals plans expansion in U.S. and Canada (N)....Mar. 128
Utility islands allow full use of lab floor space at Electro Metallurgical's building (N) ....Feb. *140
Contacting—Liquid-gas contacting. R. E. Vener (charts) (report) ....Aug. *175

Continuous Processing:
Fatty acid distillation. C. A. Lee (charts) ....July *189
LMFR—continuous breeder reactor offers cheap power from U-233 dissolved in molten bismuth (N) Mar. *114
Liquid proportioning—report. Lawrence Lowy ....May *175
On-the-run blending yields solid benefits (N) ....Nov. *118
Pine gum distillation now continuous (N) ....June *132
Two different approaches to continuous cooking of woodpulp (N)..Oct. *136

Controls:
All-electronic controls for Truland Chemical's East Rutherford, N. J. plant (N) ....June 126
Analyzers unlock process control Dec. *252
Auto thermostat controls cooling water. J. Mozick (P.N.)....Sept. *216
Cavitating venturi for flow control. Wright & Olicker....Nov. *221
Chart simplifies control of sulfur plants. Thomas & Garcia (P.N.) May 210
CPI automation: much already, more soon? W. H. Chartener..Sept. *270
Control valves for narrow flow range. J. T. Seildorf (P.N.)....May *208
Flow alarm is sensitive, adjustable. J. R. Wilson (P.N.) ....Oct. *216
Inventory of new equipment and accessories. ....Mid-Sept. 196
Liquid proportioning—report. Lawrence Lowy ....May *175
Quality control costs cut safely (tables) ....July 264
Conveyors — Cylinder of high-strength aluminum alloy supports conveyor (N) ....Mar. *130

Cooling Towers:
Sun Oil's dual-purpose towers function as biological filters to control water pollution at Toledo refinery (N) ....July *128
Three new water conditioners...Nov. 144
Copper formate—New preservative challenges copper naphthenate and creosote (chart) ....July 146

Corrosion:
Best designs for lead installation Pt I Mar. *228, Pt II Apr. *224, Pt III May *226
Bibliographic survey of corrosion published ....May 232
Controlling corrosion in water systems. L. P. Sudrabin....Sept. *236
Corrosion fatigue with fuming nitric acid ....July 234
Corrosion testing at high temperatures. N. D. Greene Jr (charts) Apr. *178
Fluidized coating process....Jan. 226
High temperature acid resistance of glass. D. K. Priest....Feb. *218
Hydrogen effusion method — novel method for measuring corrosion Aug. 252
Improved elevated temperature strength of austenitic stainless steel by coldworking. R. A. Lula & others (charts) ....Oct. 236
Industrial scenario: "zinc controls corrosion" ....June *284
Inspecting lead linings. K. H. Roll Nov. *248
International's mercury cell — cathode design overcomes corrosion (N) ....May *120
Isopropyl alcohol plant as unique corrosion problem ....Aug. *264
"Liquid piston" defeats pump corrosion. V. O. Bonnichsen (P.N.) Nov. *228
Metallizing for protection of bulk shipments. H. S. Hammond..June *278
Method of finding comparable paint costs. Volkening & Wilson Jr. (chart) ....Aug. 248
National Assn. of Corrosion Engineers meeting theme—control of corrosion in chemical industry May 232
NACE annual meeting to discuss reducing nation's annual loss to corrosion ....Jan. 226
New method of corrosion protection for equipment from Graver Water Conditioning Co. ....Jan. 228
Oil-well corrosion inhibitor...Apr. 144
Plastic stack at Dow's Freeport, Tex. plant ....Aug. *260
Preventing corrosion in air preheaters. A. C. Friedland (P.N.) Sept. 218
Protect your tank hoops from corrosion. D. F. Othmer (P.N.)..June *260
17 biennial report on materials of construction
Pt 1 Protective lining systems. Mixer & Oechsle Jr. ....Nov. *176
Pt 2 Directory of construction materials (tables) ....Nov. 197
Stainless tubing — non-destructive test equipment for better quality Feb. *222
Test kit ....May 232
Tests for shafting alloys....June 284
Titanium moves into process equipment. G. T. Bedford & others (tables) ....Dec. *21,
Titanium scaling evaluated....Feb. 234
Zinc-filled silicate coatings offer better corrosion resistance....Jan. *234

Costs:
Ammonia refrigeration cuts cost in making dry ice (N)....Aug. *114
Consider inflation in comparative cost analyses. F. C. Jelen (charts) May 165
Critical comparison of today's nitric processes. S. Streisoff (table) May *171
Cut repair time and costs with alert design. Schwab & Earnheart..Oct. *190

Estimating costs for radiochemical plants. W. G. Stockdale (tables) Apr. 185
How much for equipment? (charts) Dec. 272
How to estimate equipment cost D. S. Davis (chart) (P.N.)....Dec. 222
Method for finding comparable paint costs. Volkening & Wilson Jr. (chart) .....Aug. 248
No letup in equipment cost rise—Marshall and Stevens annual indexes of comparative equipment costs, 1913-1956 (charts & table) Mar. 296
Production costs—technology in 1956 . . . 33rd annual review and forecast .....Jan. 180
Quality control costs cut safely (tables) .....July 264
Save money on bubble-cap columns. Walsh & Lafyatis (charts & tables) .....Apr. *193
17 biennial report on materials of construction
Pt 1 Protective lining systems. Mixer & Oechsle Jr.....Nov. *176
Pt 2 Directory of construction materials (tables) .....Nov. 197
Watch your cost analyses. F. C. Jelen .....June *247
Crystallization — Urea-adduct process gains ground in lube-oil dewaxing (N) .....Nov. *114
Crystals — Guanine crystals for natural pearl essence (N) .....May *142
Curves — Simple scheme integrates a curve. G. C. Szego (P.N.)....Aug. 230

D

Design:
Acid-leaching of uranium from waste gold slimes demands careful design (N).....May *126
Baffles are key to larger extractor columns .....Mar. *246
Balls keep solids moving, speed up rate of heat transfer in rotary kilns (N) .....Mar. *130
Barometric condenser design. Hartan How .....Feb. *174
Bubble-cap fractionation column uses tray spacing of only 4 in. (N) Mar. *132
Catalytic reactor design problems. Corrigan & Mills (charts & tables) Pt 1 July 201, Pt 2 Aug. 221, Pt 3 Sept. 211
Cavitating venturi for flow control. Wright & Olicker.....Nov. *221
Chart compares vessel design theories. R. W. Schneider (P.N.) Jan. 218
Critical comparison of today's nitric processes. S. Strelzoff (table) May *171
Cut repair time and costs with alert design. Schwab & Earnheart..Oct. *190
Easy-to-use charts will help you in designing an optimum system made up of modular heat exchangers. R. L. Callard (charts)..July 197
Extruded gaskets solve high-pressure problems. Raymond Meyer Nov. *212
Heat exchangers — designing more exactly. Joseph Fabregas (charts & tables) .....Apr. *181
How many stages to extract solids? S. R. M. Ellis (charts).....Sept. 185
How to buy pressure vessels. R. W. Schneider .....Dec. *179
How to design the optimum heat exchanger. Cichelli & Brinn....May *196
Improve your compressor design with new calculation method. W. Hartwick (charts & tables)..Oct. 204
Install the right-size orifice. Troupe & Goodwin (charts & tables)..Oct. 199
LMFR—continuous breeder reactor offers cheap power from U-233 dissolved in molten bismuth (N) May. *114
Lead installations design. Pt 1 Mar. *228, Pt II Apr. *224, Pt III May *226
Make your heat exchanger design estimates more complete. Auro & Andres (P. N.) .....Mar. 208
Mechanical seals for handling abrasive liquids. R. D. Norton (report) .....Sept. *199
Modern approach to pilot-plant design. J. D. Grothe.....June *239
More data to aid design—liquid densities over temperature range. J. O. Osburn.....Mar. 196
New head design for heat exchangers distributes flow evenly (N)..Mar. *118
Nuclear reactor powered by four-gallon fuel tank (N).....Sept. *122
Organization for plant design. R. L. Miller Jr. (charts & table)...July *185
Overhead pipeline design. R. J. Sweeney (table) .....Mar. *199
"Packaged" low-amperage mercury cell tailored for small chlorine-caustic user (N).....May *118
"Packaged"-mercury cell—cathode design overcomes corrosion (N) May *120
Physical equilibrium for equipment design. J. O. Osburn, Pt 1..Nov. 223
Pt 2 .....Dec. 211
Plot vapor-liquid equilibrium diagrams faster. N. N. Buchsbaum Feb. 168
Pressure vessels—help in designing. R. W. Schneider .....Feb. *171
Proper design for painting. Kirtley & Colter .....Feb. *187
Reactor design for catalytic reactions. Corrigan & Mills (charts & tables) Pt 1 Apr. *197, Pt 2 May *203
Reactor design for complex reactions. Corrigan & Young.....Pt 1 Jan. *207
Pt 2 Feb. 193
Reactor design problem: complex reaction. Corrigan & Young..Mar. *201
Reactor design problem: stable operation. Corrigan & Mills (charts) June 253
Remote operations in U-235 processing. C. A. Rohrmann.....Oct. *195
17 biennial report on materials of construction Pt 1 Protective lining systems. Mixer & Oechsle Jr...Nov. *176
Pt 2 Directory of construction materials 9 (tables).....Nov. 197
Tray filters benefit from better design as H_3PO_4 processing sets pace—flowsheet .....July *214
Turbofio process—fluid-bed unit cuts short circuits (N).....Feb. *116
Update your reactor design method. Ju Chin Chu, Pt 1.....Nov. *215
Pt 2 .....Dec. *183
Westvaco new ammonia plant is shrunk to fit (N).....July *118
What commercial reactors look like. Corrigan & Mills.....Oct. *211
Wind-tunnel studies on scale models show how you can avoid air pollution (N) .....Sept. *140

Detergents:
Detergents alkylate plants planned for U. K. and Canada (N)....Apr. 124
GAF expands syndets, chlor-alkali (N) .....Jan. 124
Shifts in soaps and syndets perk profits. H. T. Sharp (chart)..Sept. 274
Diamonds — Man-made industrial diamonds one step nearer to commercial production .....July 148
Diazonium fluorophosphate—Source of PF_3 catalytic fluoride.....Aug. 146
Diethylene glycol—Vapor pressure. D. S. Davis (P. N.) (chart).....Aug. 232

Distillation:
Better way to use distillation diagrams. R. W. Fisher (chart) (P.N.) .....Aug. 234
Fatty acid distillation. C. A. Lee (charts) .....July *189
Installing a propane dryness indicator. L. G. Vazquez (P.N.)..Apr. *208
New reflux flow splitter resists corrosion. Haire & Eckhaus (P.N.) Dec. *230
Pine gum distillation now continuous (N) .....June *132
Plot vapor-liquid equilibrium diagrams faster. N. N. Buchsbaum Feb. 168
Save money on bubble-cap columns. Walsh & Lafyatis (charts & tables) Apr. *193
Stabilization tower at Provence, France refinery put on stream (N) May *122
Drilling muds .....Dec. 142

Drugs:
Consumer trade lures ethical drug makers .....Oct. *266
1955 industry sales, profits soar (table) .....Jan. 266
Pharmaceuticals output boosted abroad (N) .....Mar. 150
Drums—Permanent ICC approval for polyethylene drums .....Aug. 252

Drying:
Installing a propane dryness indicator. L. G. Vazquez (P.N.)..Apr. *208
Rotating filter dryer at new Owens-Illinois silica sand plant (N)..Mar. *138

Dust and Fume Handling:
Air pollution attacked nationally and locally (N) .....Mar. 128
Caustic scrubber cuts down acid fumes. R. L. Bates (P.N.)....Feb. *200
Choice of materials for gas scrubbers. H. P. Willett.....July *228
Inventory of new equipment and accessories .....Mid-Sept. 164
New process yields chlorine-free plant exhaust (N).....Sept. 126
Riverside Cement starts project to reduce plant dust (N).....Feb. 128
You can avoid air pollution (N) Sept. *140
Dyes—Citrus aniline dye.....May 140

E

Economics:
CPI has lots of ready cash. W. H. Chartener (charts) .....June 308
Chemical processors—spending plans for 1957 higher than 1956. W. H. Chartener (charts & tables)..July 258
Chemical profits in '55: the big pay-off. William Chartener (table) Apr. 256
Chemical raw materials—make 'em or buy 'em?.....May 264
Chlorine-caustic: a dynamic balance. C. H. Chilton (chart)..May 256
Consider inflation in comparative cost analyses. F. C. Jelen (charts) May 165
Consumer trade lures ethical drug makers .....Oct. *266
Drug industry sales, profits soar in 1955 (table) .....Jan. 266
Fats and oils—record supplies present disposal problem; research, exports provide solution (chart). H. T. Sharp (chart) .....Feb. 252
How about a biennial business census? .....June 310
How much for equipment? (charts) Dec. 272
How much for research?.....Nov. 286
How to handle outside research projects .....Nov. 288
How to pick best projects (N)..Jan. 132
Living standards—technology in 1956 . . . 33rd annual review and forecast .....Jan. 184
Most metal makers hard put to produce enough. C. H. Chilton Apr. 260
1956 pesticides: ups and downs. Melvin Goldberg (table).....Dec. 276
1956 sales outlook and capital spending—another record chemical year ahead (charts) .....Jan. 262
Orders for capital goods reflect industry optimism (charts).....Oct. 272
Petroleum—new records set . . . but not for long. R. F. Fremed (charts & tables) .....Mar. 264
Plastics in '56: 4 billion (chart) May 262
Shifts in soaps and syndets perk profits. H. T. Sharp (chart)..Sept. 274
Solvents—1955 sales, production, prices, consumption—outlook for 1956 (charts & table).....Mar. 260
Sulfur, sulfuric acid stock records. T. P. Forbath (tables).....Aug. 278
Synthetic fibers shine again. H. T. Sharp (chart) .....May 258
What's ahead for chemicals from wood? Frances Arne.....Nov. 282

Education:
Atom education . . . more join in Oct. 232
College crisis . . . too many and too few .....Nov. 244
New graduates: what they know June *268
Nuclear engineering training available .....Mar. 224
Univ. of Calif. offers ten-day course—for all levels.....Dec. 234

Electricity:
Germanium power rectifiers for electrochemical applications (N)..Feb. *126
How to use neon bulbs for warning. P. C. Ziemke (P.N.).....Sept. *222
Inventory of new equipment and accessories .....Mid-Sept. 146
More fresh water via membranes. T. A. Kirkham (charts & tables) Oct. 185
Super-size Al cells gain new convert (N) .....July 132
Use electric heat to speed thawing of frozen pipes. P. C. Ziemke (P.N.) .....Jan. *214

Electronics:
All-electronic controls for Truland Chemical's East Rutherford, N. J., plant (N) .....June 126
Transistors made new way fit for new uses (N) .....Mar. 136

Enamel—Alkyd resin improves baking enamels .....Jan. 146

Energy:
Energy resources—how thin? Dressler & Cruse (charts & table).....July *172
Process heat from nuclear reactors. R. H. Graham .....Mar. *191
Released: Sun's energy stored 60 miles up (N) .....June 120

Engineering:
Computer solves heat flow problems. Levine & Opler.....Jan. 203
Engineering contracting firm as designer and constructor of process plant. R. L. Miller Jr. (charts & table) .....July *185
Engineering groups . . . keeping them straight .....July 224
Fundamental approach to design of fertilizer granulation process wins

over economic odds for Weatherly Co. (N) ..... Aug. *128
High temperatures—tools for tomorrow
Production, N. K. Hiester .. Dec. *174
Containment, A. W. Searcy .. Dec. 176
Application, Leo Brewer .... Dec. 177
How does linear programming work?
A. Acrivos (chart) ..... Aug. 215
How ingenuity with camera licks engineering problems (N) .... Sept. *128
How you can save with digital computers (charts) (N) ..... Dec. *136
Industrial statistics—report. William Volk (charts & tables) ..... Mar. 165
Modern approach to pilot-plant design. J. D. Grothe ..... June *239
Solar energy—its eventual significance to chemical engineers. G. O. G. Lof ..... Sept. *175
Westvaco new ammonia plant is shrunk to fit (N) ..... July *118
What can linear programming do? Schwan & Wilkinson (charts & table) ..... Aug. 211

Engineers:
Build a career in patent law. Barry Moyerman ..... Aug. 238
Cost engineers form professional group (N) ..... Aug. 116
Does chemical engineering pay? P. B. Stewart (charts) ..... Sept. 193
Engineering contractor as a designer and constructor of process plant. R. L. Miller Jr. (charts & table) ..... July *185
Engineering Societies Center to remain in New York (N) ..... Sept. 120
$500 reward . . . hiring gimmick ..... June 274
For the future . . . more engineers ..... July 224
Get more from your technical journals. D. S. Davis (P.N.) .. June 260
Graduate study—apply now .... Sept. 232
Help available for those in service ..... Dec. 234
Here's how you could be treated better. H. R. Northrup ..... Apr. 214
How to get more out of a convention ..... Sept. *226
How to handle outside research projects ..... Nov. 288
How to organize for top performance ..... Mar. *218
How you can pass the registration exam. J. D. Constance ..... Feb. 208
How you can register in other states. J. D. Constance ..... Oct. 226
New graduates: what they know ..... June *268
1956 job outlook—look for jobs to abound in coming months but salaries won't be much higher ..... Jan. 226
Nuclear engineering training available ..... Mar. 224
Project engineer: industry's plant builder. C. W. Barkow (chart) ..... May *218
Retired engineers for teaching jobs ..... Dec. 234
Salaries—government ups ante .. Aug. 244
Salaries—new survey coming .. Sept. 232
Salaries—starting rates reach new highs for chemical engineers. Mar. 224
Study job content . . . to free engineers ..... Nov. 244
Take a new look at the engineering shortage ..... Aug. *207
Technology in 1956 . . . 33rd annual review and forecast ..... Jan. 188
These new books can help you get ahead ..... Dec. 228
Training engineers as executives ..... June 274
Univ. of Calif. will offer ten-day course for all levels ..... Dec. 234
We can get more engineering, right now. H. L. Bullock ..... Aug. *208
Enzymes—Fermentation catalyzes enzyme business (N) ..... Nov. *122

Equipment:
Grace Chemical ammonia plant ties new equipment into going operations without missing a step (N) ..... June *128
How much for equipment? (charts) ..... Dec. 272
How to clean equipment chemically. R. L. Fiske ..... Dec. *187
How to estimate equipment cost. D. S. Davis (chart) (P.N.) ..... Dec. 222
Inventory of new equipment and accessories ..... Mid-Sept 146
Inventory of equipment and accessories—technical literature ..... Mid-Sept. 359
Liquid-gas contacting. R. E. Vener (charts) (report) ..... Aug. *175
No letup in equipment cost rise—Marshall and Stevens annual indexes of comparative equipment costs, 1913-1955 (charts & table) ..... Mar. 194
Selecting wear-resistant materials. Lutes & Reid, Jr. (table) .... June 243
Titanium moves into process equipment. G. T. Bedford & others (tables) ..... Dec. *238

Pump, centrifugal ..... Jan. 258, Mar. *244, June *292, July 252, 246
Pumps, condensate return ..... Sept. 256
Pump, controlled ..... Jan. *258, Feb. 242
Pump, diaphragm slurry ..... Mar. 244
Pump, double-ended ..... Apr. 246
Pump, filter ..... Apr. 240
Pump, fire ..... Sept. *260
Pump, hydraulic pressure exchange ..... Mar. *238
Pump, leakproof ..... Apr. *248, July *248
Pump, midget ..... May 244
Pump, oxygen ..... Oct. 258
Pump, package ..... Aug. 272
Pump, portable ..... Mar. 244
Pump, process ..... Oct. 260
Pump, proportioning ..... Apr. *248
Pumps, rotary ..... Nov. 272
Pump, slurry ..... Feb. *242
Pump, solids ..... June *296
Pump, submerged ..... Nov. 272
Pump, submersible ..... Jan. 256
Pump, sump ..... Dec. *264
Pump, turbine ..... Jan. 258, Oct. 260
Pump, vacuum ..... Mar. 242
Pump laboratory ..... May *242
Radiography unit ..... May 248
Reactors, glassed ..... Jan. 248
Reactors, pilot ..... Feb. 236
Reactors, small ..... Apr. *240
Recorder, dust ..... May 240
Recorder, electronic ..... Jan. 254
Recorder, gas moisture ..... May *236
Recovery system ..... Apr. 238
Rectifier, germanium ..... June 300
Reducer, speed ..... Apr. 246
Refractometer, process ..... Aug. *266
Regulator, air ..... Apr. *252
Resurfacing material ..... Apr. 250
Rings, insert ..... June 304
Rope, fiber ..... June *304
Salt dissolvers ..... Apr. 238
Sampler, cylinder ..... Nov. 274
Scale, automatic ..... Sept. 264
Scale, bagging ..... Aug. 260
Scale, checkweight ..... Jan. 250
Screen, heated ..... June *298
Screen, vibrating ..... Apr. 238
Scrubber, gas ..... Jan. *256
Seal, hopper car ..... Jan. *250
Seal, mechanical ..... Aug. 262
Seal, shaft ..... Nov. 276
Separator, entrainment ..... Feb. *230
Separator, magnetic ..... Feb. 244, June *298
Shoe, conductive ..... Sept. 260
Shutoff and alarm ..... Nov. *274
Signal, overload ..... Aug. 266
Snubber, gage ..... Feb. 240
Spectrometers, mass ..... Sept. 262
Springs, plastic ..... Sept. *266
Steam purifier ..... Nov. *278
Steel framing ..... Sept. *260
Stopple device ..... June *288
Straddle carrier ..... Apr. *242
Switch, magnetic limit ..... Mar. 256
Switch, pressure ..... Aug. 266, Nov. 272
Switch selector ..... Mar. *256
Tachometer head ..... July 244
Tanks, chemical ..... June 298
Tanks, collapsible ..... Dec. *264
Tank liner, plastic ..... Aug. *268
Tank patch, resin ..... Sept. *268
Tape, bag-patching ..... Jan. *252
Tape, electrical ..... Oct. 262
Teflon, cementable ..... Oct. *252
Test facility, hydraulic ..... Nov. *272
Thermal cutout ..... July *248
Thermocouple ..... May 240
Thermometer, surface ..... May *240
Timer, industrial ..... Nov. 274
Transducer, ultrasonic ..... Nov. *270
Transfer unit ..... Jan. 252
Transistors ..... Dec. 266
Transmitter, flow ..... Jan. 254
Transmitter, temperature ..... Feb. 238
Trap, iron ..... Aug. 270
Tray, distillation ..... Sept. *252
Trucks, fork ..... June *296
Tubes, formed-in-place ..... Apr. *250
Tubing, bendable ..... Sept. 266
Tubing, nylon ..... Oct. 258
Unloader tilts boxcar ..... July *254
Vacuum still ..... July *242
Valve, ball ..... Feb. 240
Valve, check ..... July 252
Valve, control ..... Mar. 242, July 250
Valve, diaphragm ..... Feb. *242, July 252
Valve, gate ..... Jan. 256
Valve, globe ..... Mar. 242, June 292
Valve, jacketed plug ..... Aug. 270
Valve, plug ..... July *248, Dec. 264
Valve, regulator-shutoff ..... Feb. *242
Valve, solenoid ..... July *252
Valve, spray ..... Jan. *258, July 248
Valve, storage ..... Sept. 256
Valve, timer ..... May *244
Valves, vacuum gate ..... Oct. *258
Valve, visible-wedge ..... May 244
Valve actuator, electric ..... Dec. 260
Valve warmer ..... Nov. *278
Vaporizer, packaged ..... Mar. *262
Vaporizer, sample ..... Dec. *258
Viscometer ..... Aug. 268
Water cooler ..... Jan. 246
Weighing system ..... May 250
Weight scanner ..... Mar. 254
Windows, sight glasses ..... Oct. 254
X-ray TV ..... Apr. *246

Ethylene:
Esso to build two ethylene units (N) ..... Apr. 124
New ethylene oxide unit caps process trend (N) ..... June 138
Polyglycol ethers ..... Jan. 148
Ethylene oxide—More production set for here and abroad (N) ..... Apr. 138

Evaporation:
Fresh-water-from-sea-evaporation plants solve water shortage (N)
Kuwait uses four-stage flash towers (N) ..... Oct. *126
Aruba employs six evaporation effects (N) ..... Oct. *128
California finds three effects okay (N) ..... Oct. *132
Submerged combustion flares again. C. S. Cronan ..... Feb. *163
Exports—U. S. synthetic rubber industry looks abroad. Frances Arne (charts) ..... Aug. 284

Extraction:
Acid-extraction of uranium from waste gold slimes demands careful design (N) ..... May *126
Baffles are key to larger extractor columns ..... Mar. *246
Chart finds stages for extraction. D. S. Davis (P.N.) ..... Oct. 322
Finite difference calculations: new look at batch extraction. J. G. Knudsen (charts & tables) ..... Apr. *188
How many stages to extract solids? S. R. M. Ellis (charts) ..... Sept. 185
Solvent extraction challenges ion exchange in uranium processing (N) ..... May *128
Solvent extraction problems in uranium recovery overcome (N) ..... May *130
Extrusion—Cold extrusion of titanium ..... Aug. 254

F

Fans—Handling compressible fluids—Fans and blowers. A. N. Rogers (charts) ..... June *202

Feeders:
Inventory of new equipment and accessories ..... Mid-Sept. 153
Liquid proportioning—report. Lawrence Lowy ..... May *175

Fermentation:
Chemical technology of fermentation. Elmer Gaden Jr. (report) (charts & tables) ..... Apr. *159
Fermentation catalyzes enzyme business (N) ..... Nov. *122

Fertilizers:
Central Farmers Fertilizer Corp. enters chemical business (N) ..... Apr. 116
Engineering for granulated fertilizers wins over economic odds for Weatherly Co. (N) ..... Aug. *128
Forests fertilized from air (N) ..... Dec. *128
Inventory of new plants and facilities ..... Mid-Sept. 10
Inventory of new processes and technology ..... Mid-Sept. 47
Liquids set new patterns (N) ..... Dec. *126
Molybdenum-containing fertilizers ..... Oct. 148
Nitric acidulation frees P_2O_5—California Spray-Chemical's plant—flowsheet ..... Oct. *358
Stauffer Chemical's L. A. mixed-fertilizer plant—product mix keyed to demand (N) ..... Apr. *136

Fibers:
Acetate yarn for industrial belting ..... Jan. 148
Cheaper acrylic fibers ..... Feb. 150
Dow's new fiber—Zefran (N) ..... Nov. 132
Inventory of new chemicals and materials ..... Mid-Sept. 108
Inventory of new plants and facilities ..... Mid-Sept. 42
Inventory of new processes and technology ..... Mid-Sept. 65
New entries, treatments in fibers field (N) ..... Sept. 138
Rubber-sized fiber ..... Jan. 150
Synthetic fibers shine again. H. T. Sharp (chart) ..... May 258

Filtration:
Rotating filter dryer at new Owens-Illinois silica sand plant (N) ..... Mar. *138
Tray filters benefit from better designs as H_2PO_4 processing sets pace—Flowsheet ..... July *314

Finance:
CPI has lots of ready cash. W. H. Chartener (charts) ..... June 308
Consider inflation in comparative cost analyses. F. C. Jelen (charts) ..... May 165
To invest or not to invest—technology checklist ..... Aug. 286
Watch your cost analyses. F. C. Jelen ..... June *247

Fire Protection:
Fire-resistant lube ..... May 144
New mastic coating resists ignition ..... Mar *148
Rainmakers are confident to make B. C. forests fireproof (N) ..... Aug. 116

Floors—Cleaning, polishing, sweeping compounds big chemical market (table) ..... Feb. 256

Flotation—Foams in chemical technology Caden Jr. & Kevorkian (report) ..... Oct. *173

Flowsheets:
CO: up and coming raw material ..... Nov. *382
Cat reformers hit top octanes ..... Dec. *374
Gas turbines—new trend in nitric acid process plant ..... Jan. *274
Lithium—unique acid process ..... Feb. *294
Lithium Chemicals—new entry in LiOH race ..... Mar. *288
Low temperature process gives new hydrogen source for NH_3 ..... June *400
New chemical process wins chromium from ore ..... Apr. *308
New process converts $MgCl_2$ into MgO, HCl. ..... Aug. *346
Nitric acidulation frees P_2O_5 ..... Oct. *358
Tray filters benefit from better designs as H_2PO_4 processing sets pace ..... July *314
Upsurge in tonnage O_2 units ..... Sept. *354
Vinyl acetate thrives at Calvert City ..... May *288

Fluidization—New Jersey Zinc's rectangular fluidbed roaster features four zones of differing bed density and turbulence (N) ..... Aug. *134

Fluids:
Drag coefficient for a better understanding of certain problems in fluid flow. W. R. Gambill ..... July *177
Fluid-bed unit cuts short circuits—Turboflow process (N) ..... Feb. *116
Handling compressible fluids—An over-all view (report) (charts & tables)
Compressor application. P. R. Des Jardins ..... June *178
Compressor selection. W. T. Alderson ..... June *188
Steam jet ejectors. Robert Frumerman ..... June *196
Fans and blowers. A. N. Rogers ..... June *202
Centrifugal compressors. E. S. Leonard ..... June *206
Axial compressors. R. E. Claude ..... June *212
Reciprocating compressors. E. L. Case ..... June *216
Rotary compressors and vacuum pumps. Bruce & Schubert ..... June *224
Drivers, controls, accessories. R. N. Hancock ..... June *227
How to pick heat for pilot reactor S. H. Friedman (tables) ..... Aug. *217

Fluorine—New plants planned by Davison Chemical and Pennsylvania Salt (N) ..... Jan. 124

Foaming—Mechanical foaming of vinyl process finds many takers (table) (N) ..... July *122

Foams in chemical technology. Gaden Jr. & Kevorkian (report) ..... Oct. *173

Formaldehyde—Borden Co. doubling West Coast output (N) ..... Mar. 134

Fractionating:
Bubble fractionation column uses

tray spacing of only 4 in. (N)..Mar *132
Foams in chemical technology. Gaden Jr. & Kevorkian (report) Oct. *173
Tower stress-relieved in three "heats" on the ground (N)..Apr. *134

Fuel:
Coming nuclear industry—report. H. E. Anderson (charts & tables) Dec. *192
Conventional fuels—still big in the year 2000 .....Feb. 256
Energy resources—how thin? Dressler & Cruse (charts & table)..July *173
LMFR—continuous breeder reactor offers cheap power from U-233 dissolved in molten bismuth (N). Mar. *114
LPG feeds new Israeli ammonia plant (N) .....July *142
Martin Nuclear Div. announces highly improved fuel element (N) Dec. 134
Simplified combustion calculations applied to any pure hydrocarbon fuel. Kist & Frmerman (charts) July 179
Fungicides—Apple fungicide controls rust. .....Apr. 148
Furfural—Central Romana By-Product Co. first successful furfural-from-bagasse plant (N).....Apr. *126

Furnaces:
Giant electrodes power big furnace at Shea Chemical (N).....Dec. *120
Shea Chemical's phosphorus furnace nears completion (N).....Aug. 120
New solar furnace products 3,500 C. (N) .....Aug. *120
Solar energy—its eventual significance to chemical engineers. G. O. G. Lof.....Sept. *175

G

Gages:
Acid tank pressurized through bubbler type level gage. J. E. Burguet (P.N.) .....Apr. *204
Gage glass improvement for vacuum tanks. A. J. Weinberger (P.N.) July 212
Two ways to stop gage glass breakage. P. C. Ziemke (P.N.)....Nov. 232

Callium—Sealant in glass joints and valves promising new application July *152

Gas:
Alignment chart finds gas flow rate in circular ducts. Pawel Cichy (P.N.) .....Feb. 204
Ammonia synthesis gas process gets plant try (N).....Dec. *134
Argon: inert but active—cutting non-ferrous metals looms as new market .....Feb. *144
Charts help solve heat balances. A. H. Younger.....Nov. *209
Choice of materials for gas scrubbers. H. P. Willett.....July *228
Chromatograph automatically analyzes refinery gas (N).....Oct. *134
Closer check on gas dryness...May *236
Continuous gas plating—high speed: feature of new plating process (N) .....Apr. *114
Electric timer used to totalize flow of process gas. Herbert Borsvold (P.N.) .....Aug. *228
Gas composition in rich combustions N. W. Luft (P.N.) (chart)...May 212
Gas flow chart for orifice and nozzles. E. J. Gibbons (P.N.)...June 264
Gas-liquid partition chromatography catching on fast (N).....June *116
How to move and meter liquefied gases. C. A. Lee (charts) ....May *193
Improved capacity chart for gases in storage cylinders. C. A. Lee (P.N.) .....Sept. 218
Liquid-gas contacting. R. E. Vener (charts) (report) .....Aug. *175
Low temperature separation process gives new hydrogen source for ammonia—coke-oven gas (flowsheet) .....June *400
P-V-T relationships of freon-142 D. S. Davis (P.N.).....Nov. 232
Synthesis gas by partial oxidation of coal (N).....Aug. 116

Gasoline:
Air, not oil, feeds Esso's new gasoline pilot plant (N).....Dec. *118
American Gilsonite's gasoline-and-coke-from-gilsonite project takes shape (N) .....Sept. *134
Cat reformers hit top octanes—flowsheet .....Dec. *374
Commercial high octanes from coal (N) .....Feb. *130
Esso answers motorists' call for higher octanes (N).....July 126
Isomerization: inside track in octane race (N) .....Nov. 128
Three firms pushing for higher octanes (N) .....Apr. 115
Two-stage fluid catalytic cracker at Shell's gives high yield (N)..July *120

Germanium—Germanium power rectifiers for electrochemical applications (N) .....Feb. *126

Germany—Chemical imports grow, expansion slows (N).....May 134

Gilsonite:
American Gilsonite's gasoline-and-coke-from-gilsonite project takes shape (N) .....Sept. *134
New use as pipe insulation boosts output (N) .....Sept. 126

Glass:
Commercial realization of more of its theoretical mechanical strength may open new markets (N)..Jan. *134
High temperature acid resistance of glass. D. K. Priest.....Feb. *218

Glass fibers—Ultra-thin glass paper..Mar. 148

Gylcerine—Shell Chemical's new glycerine-feeder plant on stream (N) Jan. *138

Graphite welded .....Dec. 148

Grinding—Ball mills grind spongy Florida phosphate rock (N)...Dec. *132

H

Haloparaffins—New line of chlorofluorohydrocarbons .....Feb. 152

Heat:
Charts help solve heat balances. A. H. Younger.....Nov. 209
External heating coils radiantly heat tank, leave interiors free for easy cleaning (N).....Apr. *118
Hole in boiler union saves heating element. C. L. Murray (P.N.).Jan. 218
Inventory of new equipment and accessories .....Mid-Sept. 177
Novel fluid-bed roaster for processing zinc concentrates at New Jersey Zinc (N).....Aug. *134
Process heat from nuclear reactors. R. H. Graham.....Mar. *191
Solar energy—its eventual significance to chemical engineers. G. O. G. Lof.....Sept. *175
Submerged combustion flares again. C. S. Cronan.....Feb. *163
Use electric heat to speed thawing of frozen pipes. P. C. Ziemke (P.N.) .....Jan. *214
Wanted: more sources of solar energy data (N) .....Sept. 120

Heat Exchangers:
Design heat exchangers more exactly. Joseph Fabregas (charts & tables) .....Apr. *181
How to design the optimum heat exchanger. Cichelli & Brinn....May *196
Make your heat exchanger design estimates more complete. Auro & Andres (P.N.) .....Mar. 208
New head design distributes flow evenly (N) .....Mar. *118
Sizing modular heat exchangers. R. L. Callard (charts).....July 197

Heat Transfer:
Aroclors, chlorinated polyphenyls, growing success in forced circulation, high-temperature heating June 142
Balls keep solids moving, speed up rate of heat transfer in rotary kilns (N) .....Mar. *120
Catalytic reactor design problems. Corrigan & Mills (charts & tables) Pt 1 July 201, Pt 2 Aug. 201, Pt 3 Sept. 211
Computer solves heat flow problems. Levine & Opler.....Jan. 103
Data fill vacuum—first published data on heat transfer in parallel flow outside tube bundles (N) Mar. *116
Estimating steam film coefficients under vacuum. Liang-tseng Fan (P.N.) .....Apr. 208
How to pick heat for pilot reactor. S. H. Friedman (tables).....Aug. *217
Low-finned tubing—a new process tool. D. Q. Kern.....Sept. *189
Quick answer to heat transfer equation. Tom Flynn (P.N.).....Jan. 220
Quick check for metal wall conductances. M. W. Shellenbarger (chart) (P.N.) .....Sept. 222
Shortcuts for transient heat flow. Granet & Gould.....Feb. 183
Short form speeds up radiation calculations. J. R. Cary (P.N.)..Feb. 200

Heat Treatment:
Fractionating tower stress-relieved in three "heats" on the ground (N) .....Apr. *134
Houdriflow reactor stress-relieved 200 ft. up (N).....Apr. *132

Herbicides—Soil fumigant—Vapam..Sept. 152

Hidalgo Chemical — Fischer-Tropsch plant finally starts up (N)....June 126

Hydrazine—Stable, nonflammable form of hydrazine promises to extend use as deoxygenator in boiler feedwater treatment .....Sept. *146

Hydrocarbons:
Gilsonite — gasoline-and-coke-from-gilsonite project takes shape (N) Sept. *134
Haloparaffins—new line of chlorofluorohydrocarbons .....Feb. 152

Hydrofluoric acid—U. S., Canada to get new producers (N).....Nov. 116

Hydrogen—Low temperature process gives new hydrogen source for ammonia (flowsheet) .....June *400

Hydrogen chloride—New process converts $MgCl_2$ into MgO and HCL (flowsheet) .....Aug. *346

Hydrogen peroxide—Allied Chemical & Dye's Syracuse plant uses new nonelectrolytic process (N)..Mar. *136

I

Imports—German chemical imports grow, expansion slows (N).....May 134

Inorganics:
Inventory of new plants and facilities .....Mid-Sept. 18
Inventory of new processes and technology .....Mid-Sept. 53

Insecticides:
1956 pesticides: ups and downs (table). Melvin Goldberg.....Dec. 276
Phosphate insecticide, Thimet, can be applied to seeds.....Mar. 148

Instruments:
Analyzers unlock process control Dec. *252
Chromatograph automatically analyzes refinery gas (N).....Oct. *134
Closer check on gas dryness....May *236
Gas-liquid partition chromatography catching on fast (N).....June *116
Installing a propane dryness indicator. L. G. Vazques (P.N.).Apr. *208
Inventory of new equipment and accessories .....Mid-Sept. 196
New "watch" times atomic particles speed (N) .....Apr. 136
Tiny "plant" monitors process wastes for Du Pont (N).....Apr. *120

Instruments Automation Conference and Exhibit—Meeting woos chemical engineers (N).....Sept. 120

Insulation:
Epoxies for electrical insulation June *146
Epoxy insulation resists cracking Oct. 146
Epoxy insulation weatherproofs cable Apr. *148
Fire-retardant mastic.....Nov. 150
High-voltage insulating rubber..Jan. *148
Insulating varnish .....Dec. 144
Johns-Manville—discovery of big new natural source for insulating board (N) .....June 126
New use of gilsonite as pipe insulation (N) .....Sept. 126
Silicone yields void-free insulation (N) .....Dec. 146

Ion Exchangers:
More fresh water via membranes. T. A. Kirkham (charts & tables) Oct. 185
Recovery of uranium from ores by ion exchange (N).....May *124
Solvent extraction challenges ion exchange in uranium processing (N) .....May *128

Ion exclusion—Bids for commercial use (N) .....Oct. *118

Isocyanates—Du Pont, Mobay and National Aniline plant swell isocyanates production (N).....May *116

Isophthalic acid challenges phthalic anhydride markets .....Mar. 142

K

Kilns—Balls keep solids moving, speed up rate of heat transfer in rotary kilns (N) .....Mar. *120

Kinetics:
Catalytic reactor design problems. Corrigan & Mills (charts & tables) Pt 1 July 201, Pt 2 Aug. 221, Pt 3 Sept. 211
Coming nuclear industry—report. H. E. Anderson (charts & tables) Dec. *192
Physical equilibrium for equipment design. J. O. Osburn, Pt 1....Nov. 223
Pt 2 .....Dec. 211
Reactor design for catalytic reactions. Corrigan & Mills (charts & tables) Pt 1 Apr. *197, Pt 2 May *203
Reactor design for complex reactions. Corrigan & Young Pt 1 Jan. *207, Pt 2 Feb. 193
Reactor design problem: complex reaction. Corrigan & Young..Mar. *201
Reactor design problem; stable operation. Corrigan & Mills (charts) June 252
Update your reactor design method. Ju Chin Chu, Pt 1.....Nov. *215

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

Pt 2 .....Dec. *183
What commercial reactors look like. Corrigan & Mills.....Oct. *211

L

Labor:
Chart your manpower needs six months ahead .....Aug. 252
CPI automation: much already, more soon? W. H. Chartener (chart) Sept. *270
$500 reward . . . hiring gimmick. June 274
Floating holidays add flexibility June 274
Here's how to get an idea—in a hurry .....July 218
How to get more out of a convention .....Sept. *226
Manpower—technology in 1956 . . . 33rd annual review and forecast Jan. 188
1956 job outlook—look for jobs to abound in coming months but salaries won't be much higher Jan. 226
Wage dividend due Kodak employees Jan. 230
Your job too big . . . be the boss July 224

Lead:
Best designs for lead installations Pt 1 Mar. *228, Pt II Apr. *224, Part III May *226
Inspecting lead linings. K. H. Roll Nov. *248

Leather—Quilon treatment improves leather .....Apr. *148
Lighting—Modern lighting—plants look better, workers see better (N) June *134

Linear Programming:
How does it work? A. Acrivos (chart) .....Aug. 215
What can it do? Schwan & Wilkinson (charts & table).....Aug. 211

Liquids:
Aid for estimating viscosity of blends. D. S. Davis (P.N.) (chart) Mar. 214
Cascade scrubber handles suspensions. J. C. Driskell (P.N.)...Dec. *224
Cavitating venturi degassifies liquids. Wright & Ollicker (P.N.).....Dec. *226
Cavitating venturi for flow control. Wright & Ollicker.....Nov. *221
Chromatograph automatically analyzes refinery gas (N).....Oct. *134
Gas-liquid partition chromatography catching on fast (N).....June *116
How many stages to extract solids? S. R. M. Ellis (charts).....Sept. 155
Kuhn column splits close-boiling liquids .....Oct. *248
Liquid epoxy hardeners.....Apr. 146
Liquid-gas contacting. R. E. Vener (charts) (report) .....Aug. *176
Liquid proportioning (report). Lawrence Lowy .....May *176
Mechanical seals for handling abrasive liquids. R. D. Norton (report) Sept. *199
Metallizing for protection of bulk shipments. H. B. Hammond..June *278
More data to aid design—liquid densities over temperature range. J. O. Osburn .....Mar. 196
Vapor-liquid values made easy—nomograph. J. F. Voorwijk..May 201

Literature—Inventory of technical literature .....Mid-Sept.

Lithium:
Canada now has own lithium grease industry (N) .....Oct. 134
Lithium Chemicals—new entry in LiOH race—flowsheet .....Mar. *288
Lithium Corp. uses unique acid process at new Bessemer City plant—flowsheet .....Feb. *294
Lithium dispersions gaining importance as polymerization catalysts for synthetic rubber..Aug. 148

Lubrication:
Canada now has own lithium grease industry (N) .....Oct. 134
Fire-resistant compressor lubricant Nov. 142
Inventory of new chemicals and materials .....Mid-Sept. 74
Kel-F oils .....Jan. 146
Organo-silicone oils .....Feb. 146
Standard Oil of Indiana plant dewaxes lubes via urea complexing (N) .....Oct. 114
Urea-adduct process gains ground in lube-oil dewaxing (N).....Nov. *114

M

Magnesia—Kaiser Chemical to make more products (N).....Apr. 138
Magnesium—Dow Chemical and Turco Products undertake research project for improving chemical milling of magnesium (N).....Mar. 128
Magnesium chloride—New process converts $MgCl_2$ into MgO, HCL—flowsheet .....Aug. *346
Magnesium Oxide—Thermal decomposition of magnesium chloride brine—first high-purity domestic source of magnesium oxide .....Aug. *142
Magnetic powder, manganese-bismuth, to yield more powerful permanent magnets .....Sept. *150

Maintenance:
Best designs for lead installations Pt I Mar. *228, Pt II Apr. *224, Pt III May *226
Cut repair time and costs with alert design. Schwab & Earnheart Oct. *190
Hydraulic Pressure Exchange Pump Mar. *238
Inventory of new chemicals and materials .....Mid-Sept. 76
Inventory of new equipment and accessories .....Mid-Sept. 213
Proper design for painting. Kirtley & Colter .....Feb. *187
Uranium reprocessing plant designed for direct maintenance by Phillips Petroleum (N).....Jan. *120

Management:
Evaluating production performance. D. V. Bierwert (tables).....May *189
Here's how to get an idea—in a hurry .....July 218
How does linear programming work? A. Acrivos (chart)....Aug. 215
How to get more out of a convention .....Sept. *226
How to organize for top performance .....Mar. *218
Responsibility . . . sans authority Nov. 244
Salaries . . . 75% get raises....July 224
These new books can help you get ahead .....Dec. 228
Univ. of Calif. will offer ten-day course for all levels.....Dec. 234
What can linear programming do? Schwan & Wilkinson (charts & table) .....Aug. 211
Why are they worth so much?..Nov. *238

Manganese—Manganese-bismuth powder to yield more powerful permanent magnets .....Sept. *150

Marshall and Stevens index of comparative equipment costs Jan. 248, Feb. 232, Mar. 194, Apr. 238, May 240, June 296, July 240, Aug. 264, Sept. 252, Oct. 250, Nov. 272, Dec. 266

Materials:
Chemical raw materials—make 'em or buy 'em?.....May 264
Coming nuclear industry—report. H. E. Anderson (charts & tables) Dec. *192
Inventory of new chemicals and materials .....Mid-Sept. 71-143
Inventory of chemicals and materials technical literature.Mid-Sept. 120
Material resources—technology in 1956 . . . 33rd annual review and forecast .....Jan. 176
Selecting wear-resistant materials. Lutes & Reid Jr. (table).....June 243
17 biennial report on materials of construction .....Nov. *176-208

Materials Handling:
Charging hopper for free-flowing solids. N. R. Beckwith (P.N.) Mar. *212
Frozen slugs seal shafts, simplifies handling of liquid metals (N) Mar. *124
How to move and meter liquefied gases. C. A. Lee (charts)...May *193
ICI's new salt delivery trucks equipped with pressurized tanks and air compressors (N).....Sept. *126
Inventory of new equipment and accessories .....Mid-Sept. 245
Mechanical seals for handling abrasive liquids. R. D. Norton (report) Sept. *199
On-the-run blending yields solid benefits (N) .....Nov. *118
PVC materials handling.....June 284
Steam lances insures napthalene flow. S. G. Hazel (P.N.)....Mar. *210
What is the best speed for your bucket elevator? C. A. Lee (P.N.) Feb. *202
Woven wire belts offer advantages for both wet and dry processing. J. F. Reid.....Jan. *195

Materials of Construction:
Best designs for lead installations Pt I Mar. *228, Pt II Apr. *224, Pt III May *226
Choice of materials for gas scrubbers. H. P. Willett.....July *228
Inventory of new equipment and accessories .....Mid-Sept. 217
17 biennial report on materials of construction, Pt 1 Protective lining systems. Mixer & Oechsle Jr. Nov. *176; Pt 2 Directory of construction materials (tables)..Nov. 197
Wear-resistant materials selection. Lutes & Reid Jr. (table)....June 243

Measurements:
Electric timer used to totalize flow of process gas. Herbert Borsvold (P.N.) .....Aug. *238
Improved capacity chart for gases in storage cylinders. C. A. Lee (P.N.) .....Sept. 218
Quick method finds solids percentage in slurries. G. E. Lightner (P.N.) .....Aug. 230

Mechanical equipment—Inventory of new equipment and accessories Mid-Sept. 237

Mercury—No. 1 problem in methyl styrene manufacture—don't let mercury get away (N).....Sept. *118

Metal Powder Assn.—New data sheet available .....Mar. 234

Metals:
Embrittling caused by high-pressure hydrogen—research to find protective coating .....July 234
Inventory of new plants and facilities .....Mid-Sept. 22
Inventory of new processes and technology .....Mid-Sept. 57
Most metal makers: hard put to produce enough. C. H. Chilton Apr. 260
Rare metals from sulfides via new process (N) .....Jan. 116

Meters:
How to move and meter liquefied gases. C. A. Lee (charts).....May *193
Liquid proportioning (report). Lawrence Lowy .....May *176

Methane—Rohm & Haas to make acetylene from methane (N).....Apr. 116

Methyl methacrylate—Hercules Powder, new producer (N).....Nov. 138

Methyl styrene:
Alkylation reactors combine toluene, acetylene (N).....Sept. *120
No. 1 problem in manufacturing—don't let mercury get away (N) Sept. *118

Mexico—More plants set, proposed (N) May 120

Mica—Synthetic mica .....Sept. *150

Mills—Ball mills grind spongy Florida phosphate rock (N).....Dec. *132

Mixing:
Calculating blends of sublots of material. R. L. Hunter (P.N.) Nov. 234
Graph solves three-component mixtures. Arturo Vera Jr. (P.N.) Apr. 210
Inventory of new equipment and accessories .....Mid-Sept. 153
On-the-run blending yields solid benefits (N) .....Nov. *118
Vapor-liquid values made easy—nomograph. J. F. Voorwijk...May 201

Models—Wind-tunnel studies on scale models show how you can avoid air pollution (N) .....Sept. *140

Molybdenum — Molybdenum-containing fertilizers .....Oct. 148

Molybdic oxide—Climax doubles catalyst output (N) .....June 136

Monopentaerythritol—Highly pure monomer, has zero ash content..Mar. 146

Motors—Kinamatic line of industrial d.c. motors .....Apr. *244

N

Naphthalene — Steam lances insure naphthalene. S. G. Hazel (P.N.) Mar. *210

National Association of Corrosion Engineers:
Control of corrosion in chemical industry—theme of meeting....May 232
1959 conference will be held in Chicago .....Feb. 224
12 Annual Corrosion Conference planned .....Jan. 238

Natural Gas:
Inventory of new plants and facilities .....Mid-Sept. 24
Inventory of new processes and technology .....Mid-Sept. 60

Natural resources—Material resources—technology in 1956 . . . 33rd annual review and forecast .....Jan. 176

Nickel—Additives key to new nickel plating process (N) .....May 142

Nitric acid:
Corrosion fatigue with fuming nitric acid .....July 234
Critical comparison of today's nitric processes. S. Strelzoff (table).May *171
Gas turbines—new trend in process plants—flowsheet .....Jan. *274
Nitric acidulation frees P_2O_5—California Spray-Chemical's plant—flowsheet .....Oct. *258

Nitroparaffins — Commercial Solvents Corp.'s commercial plant at Sterlington, La.—keys to a new chemical kingdom .....Jan. *199

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

Nomographs:
How to estimate equipment cost. D. S. Davis (P.N.).....Dec. 222
Make your heat exchanger design estimates more complete. Auro & Andres (P.N.).....Mar. 208
Method of finding comparable paint costs. Volkening & Wilson Jr. (chart).....Aug. 248
More data to aid design—liquid densities over temperature range. J. O. Osburn.....Mar. 196
P-V-T relationships of freon-142. D. S. Davis (P.N.).....Nov. 232
Quick answer to heat transfer equation. Tom Flynn (P.N.).....Jan. 229
Shortcut chart for standard deviations. D. S. Davis (P.N.).....Apr. 206
Ternary mixture chart finds weight and mole fractions. G. A. Lessells (P.N.) (charts & tables).....July 208
Vapor-liquid values made easy. J. F. Voorwijk.....May 201

O

Oils and Fats:
Inventory of new processes and technology.....Mid-Sept. 46
New plants set (N).....Nov. 130
Organo-silicone oils.....Feb. 146
Research, exports brighten fats and oils. H. T. Sharp (chart)....Feb. 352
Olefins—Long-chain epoxies from Becco.....May 144
Operations Research:
How does linear programming work? A. Acrivos (chart).....Aug. 215
What can linear programming do? Schwan & Wilkinson (charts & table).....Aug. 211
Organic chemicals:
Inventory of new chemicals and materials.....Mid-Sept. 78
Inventory of new plants and facilities.....Mid-Sept. 13
Inventory of new processes and technology.....Mid-Sept. 48
Organics—Global tariff talks omit most organics (N).....Mar. 128
Oxidation:
Critical comparison of today's nitric processes. S. Strelzoff (table)..May *171
Gas-from-coal process gets plant try (N).....Aug. 116
Gas turbines—new trend in nitric acid process plants—flowsheet..Jan. *274
Oxygen:
Brassert process for making steel puts high-purity oxygen on tonnage basis (N).....Feb. *122
Upsurge in tonnage O_2 units—flowsheet.....Sept. *354
Yorkshire, England oxygen plant biggest in U.K. (N).....Apr. 128

P

Packaging:
Inventory of new equipment and accessories.....Mid-Sept. 245
Polyester-based film.....Aug. *148
Painting—Proper design for painting. Kirtley & Colter.....Feb. *187
Paints:
Aluminum-silicone paint.....Apr. 150
Automotive paint.....Nov. 144
Du Pont upping output of paint ingredients (N).....Mar. 128
Fire retardant paints.....Feb. 148
Method for finding comparable paint costs. Volkening & Wilson Jr. (chart).....Aug. 248
Paint latex.....Dec. 144
Patents—Build a career in patent law. Barry Moyerman.....Aug. 228
Pentaerythritol—Hercules to boost capacity (N).....Apr. 128
Perfume—Synthetic ambergris....Sept. 148
Petrochemicals:
Dow moves to buy Bay Refining to insure raw material position in petrochemical field (N).....Sept. 130
Great Britain expands petrochemicals (N).....Oct. 124
Japan develops novel cracking unit (N).....Oct. 124
New units for Japan and Britain (N).....Aug. 132
Sarnia, Ont., plant under construction (N).....Oct. 120
Wyoming: site of new chemical empire? (N).....June 130
Petroleum:
Atomic aid in getting oil from tar sands (N).....Mar. 128
Canadian tar sands—new developments (N).....Jan. 130
Cat reformers hit top octanes—flowsheet.....Dec. *274
Drilling muds.....Dec. 142
Houdriflow reactor stress-relieved 200 ft. up (N).....Apr. *132
Inventory of new plants and facilities.....Mid-Sept. 24
Inventory of new processes and technology.....Mid-Sept. 60
Isomerization: inside track in octane race (N).....Nov. 128
1955 supply and demand reached new highs—outlook for 1956: more broken records. R. F. Fremed (charts & tables).....Mar. 264
Paragon Oil plans Rhode Island refinery (N).....Mar. 130
Petroleum sulfonates.....Oct. 146
Research—how to pick the best projects (N).....Jan. 132
Universal Oil Products tests show no catalyst regeneration, no sag in octane rating (N) (chart)....June 130
Viscosity data will help unlock Alberta's oil sands (N).....Aug. *118
Phosphates:
Ball mills grind spongy Florida phosphate rock (N).....Dec. *132
Liquid phosphate feed.....May 146
Nitric acidulation frees P_2O_5—California Spray-Chemical's plant—flowsheet.....Oct. *358
Phosphating coating guide.....Apr. 232
Solvent extraction problems in uranium recovery from phosphate rock overcome (N).....May *130
Thimet, systemic insecticide, can be applied to seeds.....Mar. 148
Three firms active in the West (N).....Aug. 124
Westvaco captures byproduct CO_2 from manufacture of industrial phosphates, turns it into dry ice (N).....May *114
Phosphoric acid:
Tray filters benefit from better design as H_3PO_4 processing sets pace—flowsheet.....July *214
U. S. Industrial Chemicals plans production (N).....Feb. 134
Phosphorus—Shea Chemical boosts output of phosphorus with new electric furnace (N).....Dec. *130
Photography:
How ingenuity with camera licks engineering problems (N)....Sept. *128
Special lenses of Cinemascope type change drawing proportions. N. W. Tune (P.N.).....July 214
Phthalic anhydride—Isophthalic acid challenges PA markets.....Mar. 142
Pigments:
Mercadium reds.....Feb. 150
Phthalocynanine pigments growth.....May *138
Pine gum distillation: now continuous (N).....June *132
Pipes:
Controlling corrosion in water systems. L. P. Sudrabin.....Sept. *236
Design of overhead pipelines. R. J. Sweeney (table).....Mar. *199
Extruded gaskets solve high-pressure problems. Raymond Meyer.....Nov. *212
Inventory of new equipment and accessories.....Mid-Sept. 261
Simple test for steam-traced pipe. R. G. Calkins (P.N.).....Dec. 222
Stopple set—flow diverted—no shutdown.....June *238
Use electric heat to speed thawing of frozen pipes. P. C. Ziemke (P.N.).....Jan. *214
Plant Construction—Organization and execution of engineering design. R. L. Miller Jr. (charts & table).....July *185
Plant location—Factors influencing plant location (table).....July 266
Plant Notebook:
Acid tank pressurized through bubbler type level gage. J. E. Burguet.....Apr. *204
Aid for estimating viscosity of blends. D. S. Davis (chart)..Mar. 214
Alignment chart finds gas flow rate in circular ducts. Pawel Cichy.....Feb. 204
Auto thermostat controls cooling water. J. Mosick.....Sept. *216
Better way to use distillation diagrams. R. W. Fisher (chart)..Aug. 234
"Bladder valve" seals circular ducts. Victor Pratt.....June *258
Calculating blends of sublots of material. R. L. Hunter.....Nov. 234
Cascade scrubber handles suspensions. J. C. Driskell.....Dec. *224
Caustic scrubber cuts down acid fumes. R. L. Bates.....Feb. *206
Cavitating venturi degassifies liquids. Wright & Olicker.....Dec. *230
Charging hopper for free-flowing solids. N. R. Beckwith.....Mar. *212
Chart compares vessel design theories. R. W. Schneider....Jan. 218
Chart computes fuel lost in clinker. G. E. Mapstone.....Mar. 212
Chart finds stages for extraction. D. S. Davis.....Oct. 232
Chart gives liquid gradient on plates. Ferdinand Rodriguez.....Nov. 230
Charts solve vacuum system problems. Greenhalgh & Miller....Jan. 222
Condensate provides pump seal liquid. Gibbons & Ulrich.....Jan. *216
Control valves for narrow flow range. J. T. Selldorff.....May *208
Drain pump serves as an agitator. R. J. Love.....Sept. 216
Electric timer used to totalize flow of process gas. H. Borsvold..Aug. *228
Estimating steam film coefficients under vacuum. Liang-tseng Fan.....Apr. 208
Flow alarm is sensitive, adjustable. J. R. Wilson.....Oct. *216
Furane cements for lining and sealing. Stasys Masiliauskas.....May 214
Gage glass improvements for vacuum tanks. A. J. Weinberger.....July 212
Gas composition in rich combustions. N. W. Luft (chart).....May 212
Gas flow chart for orifices and nozzles. E. J. Gibbons.....June 264
Get more from your technical journals. D. S. Davis.....June 260
Graph solves three-component mixtures. Arturo Vera Jr.....Apr. 210
Hand valves to decrease control valve range. Tom Ciarlariello.....Oct. *218
Hole in boiler union saves heating element. C. L. Murray.....Jan. 218
How to cut centrifugal pump delivery. David Wittenberg.....May *214
How to estimate equipment cost. D. S. Davis (chart).....Dec. 222
How to use neon bulbs for warning. P. C. Ziemke.....Sept. *220
Improved capacity chart for gases in storage cylinders. C. A. Lee.....Sept. 218
Improved condenser for supplying gland water. R. W. Fugler..July *214
Installing a propane dryness indicator. L. G. Vazques.....Apr. *208
Irregular areas found without a planimeter. C. A. Harper....July 210
Lab unit duplicates batch tank operation. P. N. Cheremisinoff....Jan. 220
"Liquid piston" defeats pump corrosion. V. O. Bonnichsen....Nov. *228
"Magic number" series speeds calculation. C. Voiff.....June 262
Make your heat exchanger design estimates more complete. Auro & Andres.....Mar. 208
"Manometer deaerator" separates immiscibles. R. L. Milloch..Oct. *220
New reflux splitter resists corrosion. Haire & Eckhaus.....Dec. *220
Now calculate dewpoint without tables. M. W. Africa.....Oct. 220
P-V-T relationships of freon-142. D. S. Davis.....Nov. 232
Portable air compressor takes care of shortages. H. B. Wayne.....July 214
Pressure snubber is easy to make. M. Rosicarelli.....Feb. *200
Preventing corrosion in air preheaters. A. C. Friedland....Sept. 218
Preventing overflow from vented tanks. G. E. Woods.....July *212
Protect your tank hoops from corrosion. D. F. Othmer.....June *240
Quick answer to heat transfer equation. Tom Flynn.....Jan. 229
Quick check for metal wall conductances. M. W. Shellenbarger (chart).....Sept. 222
Quick method finds solids percentage in slurries. G. E. Lightner....Aug. 230
Safety kink in using glass tubing. T. L. Brown.....Nov. 232
Sampler handles solids-carrying streams. E. P. Leonard.....Dec. *218
Short form speeds up radiation calculations. J. R. Cary.....Feb. 200
Shortcut chart for standard deviations. D. S. Davis.....Apr. 206
Simple scheme integrates a curve. G. C. Szego.....Aug. 230
Simple test for steam-traced pipe. R. G. Calkins.....Dec. 222
Siphon arrangement takes continuous samples. R. E. Calcote.....July *214
Special lenses change drawing proportions. N. W. Tune.....July 214
Steam lances insure napthalene flow. S. G. Hazel.....Mar. *210
Sump pump measures steam use. Steve Taborosi.....Feb. *198
Ternary mixture chart finds weight and mole fractions. G. A. Lessells (charts & tables).....July 208
Testing metals in glass-lined vessels. Kenneth Kelly.....Nov. *234
Tracers find brine well oil pad. J. Kohl.....Sept. 230
Two numbers that make a log plot. J. H. Smith (chart).....Oct. 230
Two ways to stop gage glass breakage. P. C. Ziemke.....Nov. 232
Use electric heat to speed thawing of frozen pipes. P. C. Ziemke.....Jan. *214
Use steam condensate as water makeup. R. W. Moore.....Oct. *216

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

Vapor pressure of diethylene glycol. D. S. Davis (chart).....Aug. 232
Watch those automatic descending doors. P. C. Ziemke .....June 260
What is the best speed for your bucket elevator? C. A. Lee..Feb. *202

Plasticizers:
Epoxy plasticizer .....Mar. 150
Polymeric plasticizer .....Oct. 142

Plastics:
Cellulose propionate plastic.....Jan. 144
Dow's Freeport, Tex. plant tests plastic stack .....Aug. *250
Fibrous glass-reinforced paneling okayed as fire-retardant material for industrial construction....Oct. *142
Foams in chemical technology Gadsen Jr. & Kevorkian (report).Oct. *173
Handling of PVC materials.....June 254
Inventory of new chemicals and materials .....Mid-Sept. 93
Inventory of new plants and facilities .....Mid-Sept. 32
Inventory of new processes and technology .....Mid-Sept. 63
Irradiated plastics—activity broadens (N) .....Nov. 132
Kel-F plastics—new lining material .....May 230
Linear polyethylene and copolymer styrene in new form.....Sept. 152
Liner corrosion-proofs tank.....Aug. *258
Plant sites set for low-pressure poly plants (2.) .....June 115
Plastic-coating process, Whirlclad Mar. *146
Plastics in '56: 4 billion (chart).May 262
Polyamide producer Foster Grant—third for the U. S. (N).....Aug. 120
Polyester-based film .....Aug *148
Polyester film .....Nov. *146
Synthetic window panes.....Aug. 148
Thermoplastics—Cymac 200 and Cymac 201 .....Oct. 144
Tough plastic seals concrete walls. Dec. *142

Plating:
Additives key to new nickel plating process (N) .....May 142
Chromium plating additive.....Sept. 14
Gas plating—high speeds: feature of new plating process (N).....Apr. *114
Plutonium—Remote operations in U-235 processing. C. A. Rohrmann.Oct. *195

Polyethylene:
Barrier coating .....Jan. 148
Battery parts of polyethylene..Feb. *152
Bradley Containers' electron accelerator irradiates polyethylene on continuous basis (N).....Jan. *114
Britain will produce its first low-pressure polyethylene using Ziegler process (N) .....July 132
High-density polyethylene molding resin via high pressure.....Nov. 142
High-strength polyethylene ....Feb. 148
High-temperature polyethylene — Hyrad (N) .....Aug. *122
Highly crystalline, low softening polys .....June 144
Linear polyethylene in extruded sheets .....Sept. 152
Monsanto to make polyethylene in United Kingdom (N).....Nov 116
Permanent ICC approval for polyethylene drums .....Aug. 252
Plant sites set for low-pressure poly plants (N) .....June 115
U. S. firms to make polyethylene in Brazil (N) .....Apr. 116
U. S. plants try range of ways to linear polyethylene (N).....Sept. 126

Polyglycol ethers .....Jan. 148

Polystyrene:
Molding polystyrene beads into any shape .....July *150
New polystyrene formulations..June 148

Polyurethane rubber—New diisocyanate polyester elastomer .....Aug. *146
Potassium borohydride—Metal Hydrides develops new process (N)....June 126

Power:
LMFR—continuous breeder reactor offers cheap power from U-238 dissolved in molten bismuth (N) Mar. *114
Material resources—technology in 1956 . . . 33rd annual review and forecast .....Jan. 176
Requirements for most liquid mixing problems. H. E. Berner (charts) July 195

Preservatives—Copper formate challenges old standbys—copper naphthenate and creosote (chart).....July 146

Pressure:
Cavitating venturi for flow control. Wright & Olicker.....Nov. *221
Chart compares vessel design theories. R. W. Schneider....Jan. 218
Extruded gaskets solve high-pressure problems. Raymond Meyer...Nov. *212
Gas-flow chart for orifices and nozzles. E. J. Gibbons (P.N.)....June 264
Help in designing pressure vessels. R. W. Schneider .....Feb. *171
How to buy pressure vessels. R. W. Schneider .....Dec. *179
Pressure snubber is easy to make. M. Rosicarelli (P.N.).....Feb. *200
Vapor pressure of diethylene glycol. D. S. Davis (chart) (P.N.)....Aug. 232

Production:
Evaluating production performance. D. V. Bierwert (tables).....May *189
Grace Chemical's ammonia plant ties new equipment into going operations without missing a step (N) June *128
Nitroparaffins—keys to a new chemical kingdom—Commercial Solvent Corp.'s plant at Sterlington, La. Jan. *199
Production costs—technology in 1956 . . . 33rd annual review and forecast .....Jan. 180
What can linear programming do? Schwan & Wilkinson (charts & table) .....Aug. 211

Pulp and Paper:
Another pulp mill project set for Sitka, Alaska (N).....Apr. 124
Brown Co.'s paper plant additions will provide innovations and a pilot plant for continuous cooking (N) .....July 136
Canada-South paper war shifts both ways (N) .....Sept. 120
Chlorine dioxide bleaching of wood pulp is today's trend (N).....July *134
Different pulps build tailor-made products (N) .....Oct. *114
Groundwood pulping process (N) Nov. *134
International Paper Co. to start newsprint and bleached kraft board mill in Ark. (N).....July 142
Inventory of new chemicals and materials .....Mid-Sept. 93
Inventory of new plants and facilities .....Mid-Sept. 39
Inventory of new processes and technology .....Mid-Sept. 64
Johns-Manville building hardboard plant (N) .....June 115
Masonite expands hardboard plant at Laurel, Miss. (N).....June 115
Two different approaches to continuous cooking of woodpulp (N) Oct. *136
Ultra-thin glass paper.....Mar. 148

Pumps:
Condensate provides pump seal liquid. Gibbons & Ulrich (P.N.) Jan. *216
Drain pump serves as an agitator. R. J. Love (P.N.).....Sept. 216
Handling compressible fluids—Rotary compressors and vacuum pumps. Bruce & Schubert .....June *224
High vacuum pumps. Z. Dobrowolski (chart) .....Sept. *181
How to cut centrifugal pump delivery. David Wittenberg (P.N.) May *214
Hydraulic Pressure Exchange Pump Mar. *238
Install the right-size orifice. Troupe & Goodwin (charts & tables)..Oct. 199
Inventory of new equipment and accessories .....Mid-Sept. 334
"Liquid piston" defeats pump corrosion. V. O. Bonnichsen (P.N.) Nov. *228
Mechanical seals for handling abrasive liquids. R. D. Norton (report) Sept. *199
Pump lab spots potential trouble May *242
Standardization of centrifugal pumps program launched (N).....Feb. *118
Sump pump measures steam use. Steve Taborosi (P.N.).....Feb. *198
Tests for shafting alloys.....June 284
Pyridine—Comeback trail—problems of tight supply and prices licked; new problem—developing markets (chart) .....Apr. 142

R

Radiation:
Bradley Containers' electron accelerator—atom smasher: new process tool (N) .....Jan. *114
Wanted: more sources of solar energy data (N) .....Sept. 120

Radioactivity:
Coming nuclear industry—report. H. E. Anderson (charts & tables) Dec. *192
Geiger counters yield key viscosity data that will help unlock Alberta's oil sands (N).....Aug. *118
Mobile unit rids water of radioactivity (N) .....Apr. *130
Tracers find brine well oil pad. J. Kohl (P.N.).....Sept. *220
Uranium reprocessing plant of Phillips Petroleum handles radioactive material in standard chemical equipment (N).....Jan. *120
Rain making—British Columbia's forests marked for fireproofing (N) Aug. 116

Rare earths:
Crane, Vitro join to produce rare earths (N) .....May 120
Davison Chemical starts up big rare earth unit (N).....Sept. 132
U. S. Yttrium plans new plant (N) Nov. 132

Rectifiers—Germanium power rectifiers for electric chemical applications (N) .....Feb. *126

Refining:
"Loop" reactor in atomic pile simulates refining (N) .....Nov. *130
Paragon Oil plans Rhode Island refinery (N) .....Mar. 130
Two-stage cracking at Shell's gives high yields (N).....July *120

Refrigeration—Ammonia cuts cost in making dry ice (N).....Aug. *114

Research:
Dow Corning's achievement....Jan. *191
Dow Corning's achievement—catalytic curiosity wins Chemical Engineering award. W. R. Collings .....Jan. 192
Dow Corning's achievement—Leadership: the key to industrial development. J. E. Hull.....Jan. *193
Here's how to get an idea—in a hurry .....July 218
High-pressure hydrogen causes embrittling of metals .....July 234
How much for research?.....Nov. 286
How to handle outside research projects .....Nov. 288
How to pick best projects (N)..Jan. 132
Sugar—chemical processors calling attention to sugar's potential as a cheap abundant chemical raw material .....Jan. 142
Viscosity data will help unlock Alberta's oil sands (N).....Aug. *118

Resin:
Alkyd resin improves baking enamels Jan. 146
Borden enters PVC resin field (N) May 120
Epoxies for electrical insulation June *146
Epoxy insulation resists cracking Oct. *146
Epoxy-resin repair putty.....Oct. *146
Epoxy-rubber sealer for strain gages Oct. 146
Fire-retardant mastic.....Nov. 150
High-density polyethylene molding resin via high pressure.....Nov. 142
High-strength poly resin.....Apr. 146
Inventory of new chemicals and materials .....Mid-Sept. 93
Inventory of new plants and facilities Mid-Sept. 32
Inventory of new processes and technology .....Mid-Sept. 63
Pelletized styrene resin.....Aug. 148
Polyester resin seals porous castings Feb. *150
Reichhold Chemicals to become melamine resin producer (N) Nov. 116
Resin additive makes concrete impervious to water.....May *144
Resin coating, Glid-Iron.....Mar. 148
Teflon resin .....Dec. 144

Rosin—Pine gum distillation now continuous (N) .....June *132

Rubber:
Atomic technique for vulcanizing silicone rubber (N) .....Aug. 126
Coral—another synthetic rubber.Feb. *148
Diisocyanate polyester elastomer Aug. *146
Dow, Shell to make latex out West (N) .....Apr. 116
Du Pont pilots new rubbers to new markets (N) .....July *126
Epoxy-rubber sealer for strain gages Oct. 146
Firestone to make both major GR-S components (N) .....July 130
High-voltage insulating rubber..Jan. *148
International Synthetic Rubber Co. formed to produce synthetic rubber in Great Britain (N).....Feb. 134
Inventory of new chemicals and materials .....Mid-Sept. 100
Inventory of new plants and facilities .....Mid-Sept. 40
Inventory of new processes and technology .....Mid-Sept. 63
Liquid neoprene .....Dec. 148
Rubber-sized fiber .....Jan. 150
Silicone rubber .....Nov. *146
Six new silicone rubbers.....June 148
Super-soft rubber, neoprene-based Oct. 144
Synthetic rubber varieties—butadiene, nitrile and silicone offered by four companies.....July 150
Synthetic rubbers from Du Pont and Goodyear (N) .....Jan. 116
Synthetic rubbers—trio of developments (N).....Dec. 116
Texas-U. S. Chemical plans new in-

stallations at Port Neches, Tex., plant (N) ....Feb. 134
Tire release agent....Sept. 152
U. S. synthetic rubber industry looks abroad. Frances Arne (charts) Aug. 284
Vinyl foam process finds many takers (table) (N) ....July *122

S

Safety:
Aluminized fabric suit keeps heat from man ....Nov. *262
Fire-resistant lube ....May 144
Inventory of new equipment and accessories ....Mid-Sept. 359
Making methyl styrene—don't let mercury get away (N)....Sept. *118
National Petroleum safety extras build to an imposing record (N) Jan. *126
New mastic coating resists ignition Mar. *148
Pfizer, Chas. & Co.—for compact city plant, fire training in parking lot (N) ....Jan. *128
Plastic paneling okayed as fire-retardant material for industrial construction ....Oct. *142
Put color to work in your plant. Garrett & Jordan (tables)..Sept. 195
Safety kink in using glass tubing. T. L. Brown (P.N.)....Nov. 232
Silicone-treated shoes ....Nov. *148
Watch those automatic descending doors. P. C. Ziemke (P.N.)..June 260

Salt:
Additive prevents rock salt caking (N) ....Oct. *148
Imperial Chemical Industries' new salt delivery trucks equipped with pressurized tanks and air compressors (N) ....Sept. *126
Tracers find brine well oil pad. J. Kohl (P.N.)....Sept. *220

Sampler handles solids-carrying streams. E. F. Leonard (P.N.)....Dec. *218

Sampler—Siphon arrangement takes continuous samples. R. E. Calcote (P.N.) ....July *214

Sealing:
Condensate provides pump seal liquid. Gibbons & Ulrich (P.N.) Jan. *216
Epoxy-rubber sealer for strain gages Oct. 146
Extruded gaskets solve high-pressure problems. Raymond Meyer Nov. *212
Frozen slugs seal shafts (N)....Mar. *124
Polyester resin seals porous castings ....Feb. *150
Tough plastic seals concrete walls Dec. *142

Seals—Mechanical seals for handling abrasive liquids. R. D. Norton (report) ....Sept. *199

Separation:
Chromatograph automatically analyzes refinery gas (N)....Oct. *134
Foams in chemical technology. Gaden Jr. & Kevorkian (report) Oct. *173
Gas-liquid partition chromatography catching on fast (N)....June *116
Hanford plant prototype tests uranium-plutonium separation (N) Nov. *126
Ion exclusion bids for commercial use (N) ....Oct. *118
Kuhn column splits close-boiling liquids ....Oct. *246
Low-temperature process gives new hydrogen source for ammonia —flowsheet ....June *400
"Manometer decanter" separates immiscibles. R. L. Milloch (P.N.) Oct. *220
More fresh water via membranes. T. A. Kirkham (charts & tables) Oct. 185
Plot vapor-liquid equilibrium diagrams faster. N. N. Buchsbaum Feb. 168
Remote operations in U-235 processing. C. A. Rohrmann ....Oct. *195
Remove liquid entrainment better with new separator ....Feb. *230
Starch-from-protein separation made sharper (N) ....Aug. 138
Tray filters benefit from better design as H_3PO_4 processing sets pace—flowsheet ....July *214
Urea-adduct process gains ground in lube-oil dewaxing (N)....Nov. *114

Shipping:
Detachable vans merge sea and land transport (N) ....Aug. *122
ICI's new salt delivery trucks equipped with pressurized tanks and air compressors (N)....Sept. *126
Metallizing for protection of bulk shipments. H. S. Hammond..June *278
Producers shipping more chemicals by boat ....Mar. 268

Silicate—Absorbent, free-flowing calcium silicate, Micro-Cel ....Jan. *146
Silicate binder ....Aug. 144

Silicon:
Solar-cell silicon ....Oct. 142
Ultra-pure silicon ....Nov. 148

Silicones:
Dow Corning's achievement....Jan. *191
Dow Corning's achievement—catalytic curiosity wins Chemical Engineering award. W. R. Collings ....Jan. 192
Dow Corning's achievement—Leadership: the key to industrial development. J. E. Hull....Jan. *193
Dow Corning's Midland, Mich., plant finishing step (N)....Apr. *124
Silicone finish for glass cloth....Apr. 148
Silicone rubbers ....Nov. *146
Silicone-treated shoes ....Nov. *148
Silicone yields void-free insulation (N) ....Dec. 146
Tire release agent....Sept. 152

Silvichemicals:
Japan tries sugar route to volume silvichemicals (N) ....Dec. 138
Pacific Lumber's new plant taps bark for silvichemicals (N)..Oct. 134
What's ahead for chemicals from wood? Frances Arne....Nov. *282

Sizing—Easy method for sizing modular heat exchangers. R. L. Callard (charts) ....July 197

Soaps—Shifts in soaps and syndets perk profits. H. T. Sharp (chart)..Sept. 274

Soda Ash:
Slurry storage saves space (N) June *122
Solvay Div. builds new plant on site of old one with lost production during construction (N)..Jan. *118

Sodium—Elektromet's new plant uses Na reduction for Ti production (N) July *130

Sodium borohydride—Source of high-energy fuels (N)....Oct. 115

Solar Energy:
Solar energy—its eventual significance to chemical engineers. G. O. G. Lof....Sept. *175
Wanted: more sources of solar energy data (N) ....Sept. 120

Solids:
How many stages to extract solids? S. R. M. Ellis (charts)....Sept. 185
Quick method finds solids percentage in slurries. G. E. Lightner (P.N.) Aug. 230
Sampler handles solids-carrying streams. E. F. Leonard (P.N.) Dec. *218

Solvents:
1955 sales, production, prices, consumption; outlook for 1956 (charts & table) ....Mar. 260
Vapor-pressures of chlorinated solvents. Holland & Davis (chart) (P.N.) ....May 210

Soybeans—Processing facilities opened at Chattanooga, Tenn. (N)....Feb. 130

Spiral sizes powder cleanly....Apr. *236

Standard Oil Co. (Ind.)—Streamlines via consolidations (N) ....June 132

Standardization—Centrifugal pump standardization program launched (N) Feb. *118

Starch-from-protein separation made sharper (N) ....Aug. 138

Statistics—Industrial statistics—report. William Volk (charts & tables) Mar. 166

Steam:
Estimating steam film coefficients under vacuum. Liang-tseng Fan (P.N.) ....Apr. 208
Handling compressible fluids—Steam jet ejectors. Robert Frumerman (charts) ....June *196
New data will extend range of steam tables (N) (chart)....Oct. 124
Sump pump measures steam use. Steve Taborosi (P.N.)....Feb. *198
Use steam condensate as water makeup. R. W. Moore (P.N.) Oct. *218

Steel:
Brassert process for making steel puts high-purity oxygen on tonnage basis (N) ....Feb. *122
High temperature acid resistance of glassed steel. D. K. Priest (charts) Feb. *218
Improved elevated temperature strength. R. A. Lula & others (charts) ....Oct. 236
Kaiser Steel Corp.'s Fontana plant uses oxygen process (N)....Aug. 120
New facilities for better steels..July *284
New series of colors to identify carbon and alloy steels....Aug. 250
Non-destructive test equipment for better quality stainless tubing Feb. *222

Sterilization—Bradley Containers' electron accelerator sterilizes pharmaceuticals (N) ....Jan. *114

Storing—Soda ash slurry storage saves space (N) ....June *122

Styrene:
Copolymer styrene in extruded sheets Sept. 152
Pelletized styrene resin....Aug. 148

Sugar
Chemical processors calling attention to sugar's potential as a cheap abundant chemical raw material Jan. 142
Japan tries sugar route to silvichemicals (N) ....Dec. 138

Sulfur:
Chart simplifies control of sulfur plants. Thomas & Garcia (P.N.) May 210
Production and consumption for 1955. T. P. Forbath (tables)....Aug. 278

Sulphuric acid:
Production and consumption for 1955. T. P. Forbath (tables)..Aug. 278
Three new plants for sulfuric span nation (N) ....July 120

Surface active agents—Inventory of new chemicals and materials. Mid-Sept. 105

Surfactant, anionic ....May 146, Sept. 180

Surfactant—Cationic surfactant emulsifies herbicide in water....June 144

T

Tanks:
Acid tank pressurized through bubbler type level gage. J. E. Burguet (P.N.) ....Apr. *204
External heating coils radiantly heat tank, leave interiors free for easy cleaning (N) ....Apr. *118
Gage glass improvement for vacuum tanks. A. J. Weinberger (P.N.) July 219
Four-gallon fuel tank powers new reactor (N) ....Sept. *122
How to buy pressure vessels. R. W. Schneider ....Dec. *179
Liner corrosion-proofs tank....Aug. *268
Metallizing for protection of bulk shipments. H. S. Hammond...June *278
One-piece tanks of polyethylene May *232
Preventing overflow from vented tanks. G. E. Woods (P.N.)...July *212
Protect your tank hoops from corrosion. D. F. Othmer (P.N.)....June *260
Protective lining systems—17 biennial report on materials of construction. Mixer & Oechsle Jr.....Nov. *176
Stainless-clad steel accumulator for hi-temp studies ....Aug. *252

Tape—Transparent tape beats cellophane tape ....Dec. 146

Tariffs—Global tariff talks omit most organics (N) ....Mar. 128

Taxes—Fast depreciation?—plenty of controversy ....Mar. 268

Technology:
Australia embraces chemical technology (N) ....Dec. *124
Foams in chemical technology. Gaden Jr. & Kevorkian (report) Oct. *173
Inventory of new processes and technology ....Mid-Sept. 45-69
Inventory of new processes and technology—technical literature Mid-Sept. 69
Technology in 1956—33rd annual review and forecast....Jan. *175

Temperature:
High temperatures—tools for tomorrow
Production, N. J. Hiester....Dec. *174
Containment, A. W. Searcy..Dec. 176
Application, Leo Brewer....Dec. 177
More data to aid design—liquid densities over temperature range. J. O. Osburn....Mar. 196
Vapor pressure of diethylene glycol. D. S. Davis (P.N.) (chart)..Aug. 232

Testing:
Inspecting lead linings. K. H. Roll Nov. *248
Testing metals in glass-lined vessels. Kenneth Kelly (P.N.)....Nov. *234

Textiles:
Copper formate challenges copper naphthenate as a preservative (chart) ....July 146
Inventory of new chemicals and materials ....Mid-Sept. 108
Inventory of new plants and facilities ....Mid-Sept. 42
Inventory of new processes and technology ....Mid-Sept. 65
Synthetic coated fabric—Dacron-Hypalon cloth ....Aug. 144
Textile treatment repels oily stains Dec. *148

Thickening agent ....Nov. 142

Tire release agent....Sept. 152

Titanium:
Cold extrusion of titanium....Aug. 254
Du Pont cuts cost (N)....Jan. 138
Elektromet's new plant uses Na reduction for Ti (N)....July *130

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

Helping the big boost in TiO_2 capacity (N) ..... Feb. *136
Horizons Inc. modifies electrolytic titanium process (N) ..... Oct. 116
National Lead discoveries in Norway and New York (N) ..... Jan. 138
Scaling evaluated ..... Feb. 224
Titanium Metals Corp. of America sets expansion for Henderson, Nev. plant (N) ..... June *120
Titanium moves into process equipment. G. T. Bedford & others (tables) ..... Dec. *238
U. S. Industrial Chemicals will make titanium via sodium-reduction (N) Oct. 124

Training:
Nuclear engineering training available ..... Mar. 224
Put color to work in your plant. Garrett & Jordan (tables) .... Sept. 195
Trona—Prasch approach to trona mining (N) ..... Dec. 118
Trucks—ICI's new salt delivery trucks equipped with pressurized tanks and air compressors (N) .... Sept. *126

Tubing:
Low-finned tubing—a new process tool. D. Q. Kern ..... Sept. *189
Non-destructive test equipment for better quality stainless tubing Feb. *222
Turbines—Gas turbines—new trend in nitric acid process plants—flowsheet ..... Jan. *274

U

Ultrasonics—Inspecting lead linings. K. H. Roll ..... Nov. *248

Unit Operations:
Liquid-gas contacting. R. E. Vener (charts) (report) ..... Aug. *175
Methyl styrene manufacture—No. 1 problem—don't let mercury get away (N) ..... Sept. *118
More uranium secrets can now be told (N) ..... May *124
Nitroparaffins—keys to a new chemical kingdom—Commercial Solvent Corp.'s plant at Sterlington, La. Jan. *199

Uranium:
Acid-leaching demands careful design (N) ..... May *126
Activity in uranium: new mills, new refineries (N) ..... Oct. 120
Coming nuclear industry—report. H. E. Anderson (charts & tables) Dec. *192
Hanford plant prototype tests uranium-plutonium separation (N) Nov. *136
Ion exchange to process uranium ores (N) ..... May *124
Remote operations in U-235 processing. C. A. Rohrmann ..... Oct. *195
Solvent extraction challenges ion exchange in uranium processing (N) ..... May *128
Solvent extraction problems overcome (N) ..... May *130
Tube Reducing Corp.'s new fabrication method (N) ..... Sept. 124
Unique reprocessing plant designed for direct maintenance by Phillips Petroleum (N) ..... Jan. *120
Vitro Rare Metals plans new uranium capacity (N) ..... Sept. 124

Urea:
Inventa process gets first U. S. try (N) ..... Sept. 138
Standard Oil of Indiana plant dewaxes lubes via urea complexing (N) ..... Oct. 114
Urea-adduct process gains ground in lube-oil dewaxing (N) .... Nov. *114
Urethane—Wire coatings don't have to be stripped before soldering .. July 150

V

Vacuum:
Cavitating venturi degassifies liquids. Wright & Olicker (P.N.) .... Dec. *220
Charts solve vacuum system problems. Greenhalgh & Miller (P.N.) Jan. 222
Data fill vacuum—first published data on heat transfer in parallel flow outside tube bundles (N) .... Mar. *116
High vacuum pumps. Z. Dobrowolski (chart) ..... Sept. *181

Valves:
"Bladder valve" seals circular ducts. Victor Pratt (P.N.) ..... June *258
Control valves for narrow flow range. J. T. Seildorff (P.N.) .. May *208
Hand valves to decrease control valve range. Tom Ciarlariello (P.N.) ..... Oct. *218
Inventory of new equipment and accessories ..... Mid-Sept. 261
Sampler handles solids-carrying streams. E. F. Leonard (P.N.) Dec. *218

Vapor Pressure:
Vapor pressures of chlorinated solvents. Holland & Davis (chart) (P.N.) ..... May 210
Vapor pressure of diethylene glycol. D. S. Davis (chart) (P.N.) .. Aug. 232
Vinyl acetate—Calvert City plant of Air Reduction Co. thrives—flowsheet May *288
Vinyl chloride—Ethyl Corp. plans to enter field (N) ..... Aug. 124
Vinyl foam—Six licensees of Elastomer Chemical Corp.'s new mechanical foaming process in production (table) (N) ..... July *122
Vinyl propionate from two sources .. Apr. 148
Vinyl stabilizing system ..... Aug. 146
Vitamins—Big-from-sewage makes plant-scale debut (N) ..... Oct. 115

W

Waste disposal:
Handling radioactive materials in standard chemical equipment at Phillips Petroleum's uranium reprocessing plant (N) ..... Jan. *120
Ruthner process recovers all chemical values in pickle liquor (N) (table) ..... Feb. *132
Tiny "plant" monitors process wastes for Du Pont (N) ..... Apr. *120

Water:
Fresh-water-from-sea — evaporation plants solve water shortages. Kuwait uses four-stage flash towers (N) ..... Oct. *126
Aruba employs six evaporation effects (N) ..... Oct. *128
California finds three effects okay (N) ..... Oct. *132
More fresh water via membranes. T. A. Kirkham (charts & tables) Oct. 185
Water repellents—Quilon treatment improves leather ..... Apr. *146

Water Treatment:
Clarifiers to slake a 3,000 gal./min. thirst at Tidewater Oil's new refinery (N) ..... Nov. *138
Coagulant aid simplifies water clarification ..... June *148
Controlling corrosion in water systems. L. P. Sudrabin ..... Sept. *236
Fresh-water-from-sea — evaporation plants solve water shortage. Kuwait uses four-stage flash towers (N) ..... Oct. *126
Aruba employs six evaporation effects (N) ..... Oct. *128
California finds three effects okay (N) ..... Oct. *132
More fresh water via membranes. T. A. Kirkham (charts & tables) Oct. 185
Mobile unit rids water of radioactivity (N) ..... Apr. *130
Scale preventive ..... Apr. 148
Stable, nonflammable form of hydrazine promises to extend its use as deoxygenator in boiler feedwater treatment ..... Sept. *146
Sun Oil's dual-purpose cooling towers function as biological filters to control water pollution at Toledo refinery (N) ..... July *128
Three new water conditioners .. Nov. 144
Zone refining studied to purify sea water (N) ..... Jan. 136

Wax:
Floor cleaning, polishing and sweeping compounds: big chemical market (table) ..... Feb. 256
Kel-F waxes ..... Jan. 146
Wear-resistant materials selection. Lutes & Reid Jr. (table) .... June 242
Welding—New aid in evaluating welds from ASTM ..... Jan. 238
Window panes, synthetic ..... Aug. 148

Wood:
Copper formate challenges creosote as a preservative (chart) .... July 146
Johns-Manville discovery of big new natural source for insulating board (N) ..... June 126
Pacific Lumber's new plant taps bark for silvichemicals (N) .. Oct. 134
What's ahead for chemicals from wood? Frances Arne ..... Nov. 282

Z

Zinc:
Air jets control fluid bed—New Jersey Zinc's new fluid-bed roaster (N) ..... Aug. *124
Rare metal from sulfides via new process (N) ..... Jan. 116
Zinc-filled silicate coatings .... Jan. *234

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

"Manometer decanter" separates immiscibles ....Oct. *220
Mills, W. C. & T. E. Corrigan
Catalytic reactor design problems Pt 1 July 201, Pt 2 Aug 221 Pt 3 Sept 211
Reactor design for catalytic reactions Pt 1 Apr. *197, Pt 2 May *203
Reactor design problem: stable operation ....June 263
What commercial reactors look like Oct. *211
Mixer, Richard A. & S. J. Oechsle Jr.
Protective lining systems....Nov. *176
Moore, R. W.
Use steam condensate as water makeup ....Oct. *218
Mozick, J.
Auto thermostat controls cooling water ....Sept. *216
Moyerman, Barry
Build a career in patent law..Aug. 238
Murray, Carl L.
Hole in boiler union saves heating element ....Jan. 218
Northrup, Herbert R.
Here's how you could be treated better ....Apr. 214
Norton, Robert D.
Mechanical seals for handling abrasive liquids ....Sept. *199
Oechsle, S. J. Jr. & R. A. Mixer
Protective lining systems....Nov. *176
Olicker, S. D. & B. S. Wright
Cavitating venturi degassifies liquids Dec. *220
Cavitating venturi for flow control Nov. *221
Opler, Ascher & C. A. Levine
Computer solves heat flow problems Jan. 203
Osburn, James O.
More data to aid design liquid densities over temperature range Mar. 196
Osburn, James O.
Physical equilibrium for equipment design....Pt 1 Nov. 223, Pt 2 Dec. 211
Othmer, Donald F.
Protect your tank hoops from corrosion ....June *260
Pratt, Victor
"Bladder valve" seals circular ducts June *258
Priest, D. K.
High temperature acid resistance of glass....Feb. *218
Reid, H. F. Jr. & W. L. Lutes
Selecting wear-resistant materials June 243
Reid, J. F.
Woven wire belts....Jan. *195
Rodriguez, Ferdinand
Chart gives liquid gradient on plates ....Nov. 230
Rogers, Arthur N.
Fans and blowers....June *202
Rohrmann, Charles A.
Remote operations in U-235 processing ....Oct. *195
Roll, Kempton H.
Inspecting lead linings....Nov. *248
Rosicarelli, M.
Pressure snubber is easy to make Feb. *200
Schneider, R. W.
Chart compares vessel design theories ....Jan. 218
Help in designing pressure vessels Feb. *171
How to buy pressure vessels....Dec. *179
Schubert, W. A. & W. L. Bruce
Rotary compressors and vacuum pumps ....June *224
Schwab, Leonard & B. G. Earnheart
Cut repair time and costs with alert design ....Oct. *190
Schwan, H. T. & J. H. Wilkinson
What can linear programming do? Aug. 211
Searcy, A. W.
High temperatures—tools for tomorrow—Containment ....Dec. 176
Selldorff, John T.
Control valves for narrow flow range ....May *208
Serner, H. E.
Get power required for mixing..July 195
Sharp, Hugh T.
Research, exports brighten fats and oils ....Feb. 262
Shifts in soaps and syndets perk profits ....Sept. 274
Synthetic fibers shine again....May 258
Shellenbarger, M. W.
Quick check for metal wall conductances ....Sept. 222
Smith, J. H.
Two numbers that make a log plot Oct 220
Stewart, Paul B.
Does chemical engineering pay? Sept. 193
Stockdale, W. G.
Estimating costs for radiochemical plants ....Apr. 185
Strelzoff, S.
Critical comparison of nitric processes ....May *171
Sweeney, R. J.
Design of overhead pipelines...Mar. *199
Szego, George C.
Simple scheme integrates a curve Aug. 230
Taborosi, Steve
Sump pump measures steam use Feb. *198
Thomas, G. B. & R. L. Ismael
Chart simplifies control of sulfur plants ....May 210
Troupe, R. A. & B. M. Goodwin
Install the right-size orifice....Oct. 199
Tune, Newell W.
Special lenses change drawing proportions ....July 214
Ulrich, James & Edward J. Gibbons
Condensate provides pump seal liquid ....Jan. *216
Vazquez, Luis G.
Installing a propane dryness indicator ....Apr. *208
Vener, Raymond E.
Liquid-gas contacting ....Aug. *175
Vera, Arturo Jr.
Graph solves three-component mixtures ....Apr. 210
Volff, C.
"Magic number" series speeds calculation ....June 262
Volk, William
Industrial statistics ....Mar. 165
Volkening, V. B. & J. T. Wilson Jr.
Method for finding comparable paint costs ....Aug. 248
Voorwijk, J. F.
Vapor-liquid values made easy..May 201
Walsh, T. J. & P. G. Lafyatis
Save money on bubble-cap columns Apr. 193
Wayne, H. B.
Portable air compressor takes care of shortages ....July 214
Weeks, W. J. & others
Titanium moves into process equipment ....Dec. *238
Weinberger, Arthur J.
Gage glass improvement for vacuum tanks ....July 212
Wilkinson, J. J. & H. T. Schwan
What can linear programming do? Aug. 211
Willett, H. P.
Choice of materials for gas scrubbers July *228
Wilson, J. R.
Flow alarm is sensitive, adjustable Oct. *216
Wilson, J. T. Jr. & V. B. Volkening
Method for finding comparable paint costs ....Aug. 248
Wittenberg, David
How to cut centrifugal pump delivery ....May *214
Woods, George E.
Preventing overflow from vented tanks ....July *212
Wright, B. S. & S. D. Olicker
Cavitating venturi degassifies liquids Dec. *220
Cavitating venturi for flow control Nov. *221
Young, E. F. & T. E. Corrigan
Reactor design for complex reactions Pt 1 Jan *207, Pt 2 Feb 193
Reactor design problem: complex reaction ....Mar. *201
Younger, A. H.
Charts help solve heat balances Nov. 209
Ziemke, Paul C.
How to use neon bulbs for warning Sept. *222
Two ways to stop gage glass breakage ....Nov. 232
Use electric heat to speed thawing of frozen pipes....Jan. *214
Watch those automatic descending doors ....June 260
